

[DRAFT] Data Sheet E – Results of Internal Review Committee

Date of Review/Recommendation: March 22, 2011

Water Body Under Evaluation:

Water Body ID #: 0531U-01 (unclassified)
Name: Brushy Creek
Length of Segment: 4.5 miles
County(ies): DeKalb and Caldwell

Use Attainability Analysis (UAA) Study:

UAA ID #: 1369
Submitter: Alliance Water Resources, Inc.
Date(s) Conducted: 10/31/2004
Date Received: February 25, 2005
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- 1-Natural Pollutant Sources.
- 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- 3-Non-Remedial, Human Caused Condition.
- 4-Hydrologic Modifications.
- 5-Natural Physical Features.
- 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? Yes No Unknown

Comments: A UAA submitted in 2005 noted ATV tracks at one site of the study. Interviews conducted during the survey cite trapping, catching minnows, and hunting. One incident of swimming was reported but the department could not confirm if the location of the event was on the unclassified portion or the classified portion of Brushy Creek that currently has WBCR contact.

Is the evaluated use attainable? Yes No

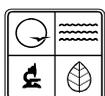

Comments: The UAA was conducted in October of 2004 and no WBCR was observed. The stream did not meet the maximum depth criterion in 2 sites evaluated. Due to evidence of secondary contact recreation (SCR), the committee recommends that the SCR use be assigned.

Committee Recommendation:

- Add Use Retain Use Remove Use
- Modify Use Inconclusive
