Use Determination & Recommendation:

Has the use existed since November 28, 1975? Yes No Unknown

Comments: The UAA survey was conducted in September 2008 and no WBCR was observed. There was a fire pit and foot prints observed at site #2 showing possible SCR use. No interviews were conducted during this survey.

Is the evaluated use attainable? Yes No

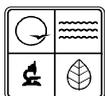

Comments: The stream met the maximum depth at 2 of 4 sites and the median depth criteria at one site for WBCR. No interviews were given in 2008 UAA. Since there was evidence of human use, the committee recommends that WBCR be retained and SCR be added.
