10 CSR 23-3.100 Sensitive Areas. This rule set specific additional construction standards for sensitive areas that had been designated on the basis of either naturally occurring problems caused by unique groundwater chemistry, anthropogenic contamination, or because they were located in a fragile groundwater environment that was experiencing rapid population growth or urbanization.

PURPOSE: This rule is being rescinded and the substantive requirements are being incorporated into 10 CSR 23-3.090 Drilling Areas (formerly Regionalization) to clearly state the differences in water well drilling requirements based on geographic, geologic, hydrologic, and anthropogenic differences throughout Missouri.

PUBLIC COST: This proposed rescission will not cost state agencies or political subdivisions more than five hundred dollars ($500) in the aggregate.

PRIVATE COST: The proposed rescission will not cost private entities more than five hundred dollars ($500) in the aggregate.

NOTICE OF PUBLIC HEARING AND NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed rescission with Department of Natural Resources’ Geological Survey Program attention to Amber Steele at P.O. Box 250, 111 Fairgrounds Rd., Rolla, MO 65402 or via email to amber.steele@dnr.mo.gov. To be considered, comments must be received by the close of the public comment period on {September 14}, 2018 at 5:00 p.m. A public hearing is scheduled for {time, September 7, 2018, place, and address of hearing}.
