

**D**id you know that in addition to posing a fire hazard during times of drought, the open burning of one household's trash releases dangerous pollutants in higher levels than burning the trash of thousands of homes by a municipal waste incinerator? The open burning of certain trade wastes and tires also produces toxic emissions harmful to human health; therefore, the open burning of these types of wastes is strictly prohibited. For more information about open burning regulations, visit [www.dnr.mo.gov/pubs/pub2047.pdf](http://www.dnr.mo.gov/pubs/pub2047.pdf). For information about waste disposal, visit [www.dnr.mo.gov/swmp](http://www.dnr.mo.gov/swmp).
