SUPPLEMENTARY LISTING RECORD

NRIS Reference Number: 02001093 Date Listed: October 3, 2002

Property Name: Patrick and Moire McMullen House

County: St. Louis State: Missouri

Historic Resources of Kirkwood, Missouri

Multiple Name

This property is listed in the National Register of Historic Places in accordance with the attached nomination documentation subject to the following exceptions, exclusions, or amendments, notwithstanding the National Park Service certification included in the nomination documentation.

Signature of the Keeper

October 3, 2002

Date of Action

Amended Items in Nomination:

Section 10: Geographical Data
The Boundary Justification is hereby amended to read as follows: “The boundary encompasses the parcel of land historically associated with the McMullen House.”

The Missouri State Historic Preservation Office was notified of this amendment.

Narrative Description  See continuation sheet [ x].
8. Statement of Significance

Applicable National Register Criteria

[ ] A Property is associated with events that have made a significant contribution to the broad patterns of our history.

[ ] B Property is associated with the lives of persons significant in our past.

[X] C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.

[ ] D Property has yielded, or is likely to yield, information important in prehistory or history.

Criteria Considerations

Property is:

[ ] A owned by a religious institution or used for religious purposes.

[ ] B removed from its original location.

[ ] C a birthplace or grave.

[ ] D a cemetery.

[ ] E a reconstructed building, object, or structure.

[ ] F a commemorative property.

[ ] G less than 50 years of age or achieved significance within the past 50 years.

Narrative Statement of Significance

See continuation sheet [x].

name  Jeannette and Bill Naumann  
street & number  212 West Monroe  telephone (314) 984-8020  
city or town  Kirkwood  state MO  zip code 63122  
Summary The Patrick and Moire McMullen House, at 212 West Monroe Street, is a large frame Late Victorian house with a steeply pitched roof and a wrap-around front porch. Constructed ca. 1907, it is an intact example of Property Type C, Victorian Houses. It meets the registration requirements for that property type set forth in the MPS Cover document "Historic Resources of Kirkwood, Missouri." Typically Victorian features of this two and one-half story frame house include the wrap-around porch, complex rooflines and picturesque massing. The first two floors of the house are sheathed with original narrow weatherboards, and the upper gable ends are shingled. The steep gable roof is punctuated by secondary gables and dormers. The large one-over-one windows of the house are all early or original, as is the ornate front door. The house occupies a level lot, at the rear of which is a non-contributing modern garage. The house is highly intact, inside and out, and in excellent condition. It exhibits integrity in all critical areas: design, setting, location, workmanship, feeling, materials and association.

Elaboration: The McMullen house sits facing north to West Monroe Street in a residential area near the commercial center of town. It is in the middle of a row of three large frame houses which are very similar in design, massing, and date of construction. This house is distinguished from the rest of the group by a higher level of integrity of materials; the other two houses have been sheathed with vinyl siding. The house sits back from the street on a level lot which contains large mature trees and other plantings. The back yard is surrounded by a low picket fence. The only other resource on the property is a two-car frame garage which sits southwest of the house, at the back of the lot. The modern garage has a front-gabled roof and is sheathed with weatherboards which are similar to those used on the main house; it is a non-contributing building.

The house is large, two-and-a-half stories tall, with a very steeply pitched side-gabled roof. The roofline is complex, with multiple lower cross gables, two of which cover polygonal bays (one each on the north and east elevations). All of the gable ends are pedimented, and wide, plain cornice boards run along the top of the second floor. Jig-sawn spandrels ornament the edges of the cross gables which overhang the window bays. The large gable ends of the main roof are stepped, with a shallow row of simple brackets running along the top of the third floor windows. Those windows are grouped in sets of three. (See photo 3.)

The exterior walls are sheathed with narrow wooden weatherboards on the first and second floors, and with asbestos shingles in the gable ends. Although not original, the shingles appear to be well over fifty years old, and probably replaced similar wood shingles. The weatherboards are original, and in very good condition. The one-over-one wood windows of the house are also original and highly intact. The house sits on a high limestone foundation.

The front elevation of the house features a prominent cross gable over one of the two-story window bays, and a pedimented gabled dormer is also set into the main roof. The one story wrap-around porch runs from the front window bay around to the east side of the house, where it connects
The hip-roofed porch has square fluted wood columns which have classically inspired capitols. The porch balusters are narrow, turned spindles. The porch entry is on the north elevation, and is reached by a concrete sidewalk leading straight from the street. The paneled entry door, which is sheltered by the wrap-around porch, has a large, round, beveled glass light in the upper half, and a large single-light transom above.

The west elevation of the house is simpler; the two lower stories are covered with weatherboards, and the large gable end is pedimented and stepped to match the east side. The back of the house has a small one story shed roofed addition, and a larger screened porch. The porch is similar in scale and detailing to the front porch.

The interior of the house is highly intact; almost all original detailing remains in place. The front door opens to a spacious stair hall, which is separated from the front parlor and dining rooms by wide pocket doors. (See photo 6.) Each pocket door has six horizontal panels, and both sets of doors are operational. The L-shaped staircase has an elaborate newel post, and slender turned balusters. Interior door and window trim is heavily molded, with tall base blocks and square plinth blocks along the upper corners. Most of the original tall, molded baseboards and simple crown molding are also intact and in good condition.

The McMullen house continues to serve its original single family use, and has seen no exterior alterations of note since the time of its construction. It is an intact, late example of the Victorian Houses property type, and appears today very much as it did when new. △

Historic Resources of Kirkwood, Missouri

Summary: The Patrick and Moire McMullen House, at 212 West Monroe Street, is significant under Criterion C, in the area of ARCHITECTURE, as a large, highly intact example of a Victorian house. The irregular massing, complex roofline and wrap-around porch are all typical of Property Type C, Victorian Houses. The house meets the registration requirements for that property type set forth in the MPS Cover document "Historic Resources of Kirkwood, Missouri," and falls under the context "The City of Kirkwood: Transition to An Automobile Suburb—1899-1952." This is a large, relatively late example of this property type, and as such, it reflects the long popularity of the Victorian movement in Kirkwood. The restrained level of applied ornamentation found on the house also reflects that late date; the exuberance of ornamentation which typified Victorian houses of the late nineteenth century was losing favor by the time this house was built. The house was built ca. 1907 for bank cashier Patrick McMullen and his wife Moira, and was the home of the Cronin family from the 1920s to the 1960s. The period of significance for the property corresponds to the construction date of ca. 1907. The house is in excellent condition, inside and out, and exhibits a high degree of integrity of location, design, setting, materials, workmanship, feeling and association.

Elaboration: The McMullen house is a highly intact, representative example of the Victorian Houses property type. Character-defining features of that property type include irregular massing, steeply pitched roofs, and elaborate porches, all of which are prominent elements of the McMullen house. Houses with various types and levels of Victorian styling were built in Kirkwood from the 1870s into the first decade or so of the twentieth century. This is therefore a significant, late example of a very long-lived architectural tradition. Because this house was built at the tail end of the popularity of that style, it exhibits a more refined ornamental system than would have been used on a house built twenty years earlier. The styles which were popular in the early twentieth century shared a common emphasis on simple lines and minimal applied ornamentation; this house reflects influences of both the old and the new.

The house is one of a group of three very similar houses which line the west end of this block. All three are of approximately the same age and size, and all appear to have been built by or for the McMullen family. In 1906, the McMullen family purchased a large lot with 300 feet fronting on West Monroe. The McMullen family at this time included P. McMullen and his wife, Mary, along with daughters Mamie, Nannie, Kate, Nellie, and Gertrude. According to a 1909 atlas, all three houses were in place, and all three occupied a single parcel of land, owned by "F. M. McMullen." Directory entries for the same year show that 71 year old Mary McMullen was by that time a widow, and

1 See MPS Cover document "Historic Resources of Kirkwood, Missouri, Section F, Associated Property Types," for more discussion of the Victorian Houses property type.

2 St. Louis County Deed Records, Book 184, p. 427.
living with her daughters Kate, Nannie, and Nellie at 202 West Monroe, which is directly west of this house. The daughters were employed as a bank clerk, a stenographer, and a teacher, respectively. The residence of P. McMullen, a bank cashier, was listed as 300 West Monroe. P. McMullen was about the same age as the daughters living at 202; it seems likely he was their brother.

By the time of the 1910 census, Patrick McMullen, bank cashier, and his wife Moira, are listed as the owners and residents of 212 West Monroe. Patrick and Moira’s house at 212 is very similar in plan to the house at 202, which was occupied by Mary McMullen and her daughters in 1909; it is very likely that the families shared building plans and a contractor for this construction project.

County Directories show that by 1920, the house at 212 West Monroe has become the home and property of John Cronin, who operated the Kirkwood Ice and Fuel Company in 1908. The house remained in the Cronin family for almost a half century. John Cronin Rathkopf, a family member who owned the house until the mid-1960s, is still a resident of Kirkwood. The house has seen few changes since the McMullens lived there, and it is today in excellent condition. It exhibits a high level of integrity and craftsmanship, and is significant as a large, late example of the Victorian Houses property type in Kirkwood.
