**42. FURTHER DESCRIPTION OF IMPORTANT FEATURES**

See continuation sheet.

**43. HISTORY AND SIGNIFICANCE**

See continuation sheet.

**44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS**

House is located at juction of Highway 47 and Highway 100 on last undeveloped acreage at these highways. Adjacent to the house is a ca. 1890 barn with board and batten siding.

**45. SOURCES OF INFORMATION**

RETURN THIS FORM WHEN COMPLETED TO: OFFICE OF HISTORIC PRESERVATION P.O. BOX 176 JEFFERSON CITY, MISSOURI 65102 PH. 314-751-5365

46. PREPARED BY Betz/Thomason

47. ORGANIZATION Thomason & Assoc.

48. DATE 7/14/91

49. REVISION DATE(S) 27
42. Two-story frame, rectangular plan I-House with a one-story rear ell. On the main (E) facade is a one-story partial width porch with a hipped roof, square columns, milled brackets and modillion blocks. The railing has milled panels. This facade has two primary entrances with ca. 1970 doors. The main facade is four bays with 1/1 sash windows and wood louvered shutters. The rear ell has an original 4 panel door. The house has a raised stone foundation and gable roof of metal standing seam. The rear ell has a ca. 1950 porch. Adjacent to the house is a ca. 1890 frame barn with board and batten siding and a metal roof.

43. This dwelling was originally part of a farmstead on the south side of Washington. The house appears built ca. 1890 but is presently unoccupied. In 1878, the farm is shown as the J.H. Neimann farm and on the 1898 atlas the dwelling is shown as part of the Louis Steuterman farm of 52 acres. The property is located at a commercial interchange and is presently for sale. It is expected that the dwelling and barn will be razed for commercial development in coming years.

45. 1878 Atlas and 1898 Atlas.

42. Stone and concrete bridge abutments which remain at crossing of old Highway 100 route and St. Johns Creek. The abutments are on either side of the creek and consist of limestone rock faced blocks. Above the limestone block section are ca. 1910 poured concrete platforms. No remains of the bridge structure are visible.

43. This bridge was built ca. 1840-50 to span St. John’s Creek on Old Highway 100. When the new highway route was completed the old bridge was abandoned and razed. All that remains are the stone bridge abutments.

45. Interview with Ralph Gregory.

Site Number: 784 (Continued)

42. Two-story brick and frame dwelling. On the main (N) facade is a ca. 1940 one-story gable roof wing. The house has a gable roof of metal standing seam and interior wall brick chimneys. The exterior of the main section has been covered with asbestos shingles. Windows are original 6/6 rectangular wood sash. In the gable fields are four-light casement windows. At the rear is an attached (originally detached) one-story brick kitchen wing. This wing has an exterior wall brick chimney and gable roof. On the (W) facade of the wing is a one-story porch added ca. 1920 with tapered frame posts and a railing with square balusters.

43. This dwelling was built ca. 1865 and is of brick and frame construction. The walls of the main section are German brick nogging construction. The house was built by Benjamin Cleve who came to the county from Germany in 1849. He purchased this farm in 1865 and built this dwelling and a mill north of the house on St. John’s Creek. The 1878 Atlas shows the B. Cleve estate and mill on a 39 acre farm. Cleve served as a county judge from 1884 until his death in 1892. An historic photo of the dwelling shows a one-story porch on the main facade and an exterior of weatherboard. In recent years the dwelling has been altered.

Site Number: 780 (Continued)

42. One-and-one-half story frame I-House built ca. 1880. The house has a stone foundation, gable roof of asphalt shingles, and exterior of asbestos siding. On the main (W) facade is a ca. 1950 one-story entry porch with square columns. Attached to the front of the house by the porch are engaged milled columns. The main entrance is original and has a two-light, two panel door. Windows are 2/2 rectangular wood sash. At the roofline is a gable dormer. At the rear is a one-story ca. 1920 shed roof addition. To the north of the dwelling are two ca. 1930 barns and three other outbuildings.

43. This dwelling is part of a farmstead located on a hillside in the south section of Washington. The house appears built ca. 1880 but has been somewhat remodeled. On the 1919 map the house is part of the Ben Jasper Farm. It continues to owned by the Jasper family.

42. One-story frame commercial building constructed ca. 1900. The building has a gable roof, with exposed eave rafters and eave vergeboard. The main facade has three bays with shuttered six-over-six sash windows. The side facades have four bays. The main entrance has a ca. 1940 five panel wood door. On the south facade is a shed roof awning supported by square wood posts. In front of this building is a ca. 1930 frame gas station built in an ell plan with an open drive-thru on the main facade. The entrance has an original single light and three panel door. Windows are 2/2 and 1/1 rectangular wood sash. The exterior has asbestos shingles.

43. This commercial building was constructed ca. 1900 on Old Highway 100 on the eastern edge of the city. The building is the only historic commercial building located in this area. In front of the building is a ca. 1930 gas station. This building is located in the original town of Southpoint which is now part of Washington.

42. Two-story frame, Gabled Ell plan dwelling with weatherboard siding and a gable roof. On the main facade is a two-story porch with square Doric motif columns and a railing with milled balusters. The main entrance has a two-light glass and wood door. On the second story is a four panel wood door which leads to the porch. The house has an interior brick chimney and stone foundation. Windows are 1/1 rectangular wood sash. At the rear facade is a one-story porch with square balusters in the railing. In the gable fields are elliptical vent windows.

43. This dwelling was built ca. 1896 as part of the Adolph Averbeck farm. This dwelling is shown on the 1898 atlas as part of the 108 acre Averbeck farm. It is located on the south side of Washington facing Highway A. The house has not been extensively altered.

45. Owner, 1898 Atlas.

42. The dwelling is a ca. 1925, 1 1/2-story wood frame Dutch Colonial plan with a stone foundation, asbestos shingles, and a gambrel roof of asphalt shingles. The front has 2 bays and the side has 3 bays. On the main facade is an incised porch with square wood columns covered with asbestos shingles. The main entrance is a multi-light glass and wood door with multi-light sidelights. The windows are 1/1 wood sash. A shed roof dormer with 2 tri-part windows is on the south facade. There is an interior wall brick chimney. On the east facade is a 1-story sun room. On the west facade is a wood staircase leading to a second story landing and entrance with a multi-light glass and wood door.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This lot is not shown on the 1893/1908/1916/1926 Sanborn maps. The house is a good example of the Dutch Colonial style.

Site Number: 534 (continued)

42. The dwelling is a ca. 1915, 1 1/2-story wood frame Open Gable with a concrete foundation, asbestos shingles, and a gable roof of asphalt shingles. The front has 3 bays and the side has 3 bays. An extended bay is on the east facade. On the main facade is a 3/4 porch with a gable roof of asphalt shingles, tapered wood columns on brick piers, and a solid wood railing. The main entrance is a multi-light glass and wood door. The windows are vertical 4/1 wood sash and 1/1 replacements on the upper story of the main facade. Gable roof dormers with 2 windows are on the east and west facades. There is a central interior wall brick chimney. A 1-story addition with brick foundation is on the north facade.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling with a 1-story wood frame garage is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean homestead. A building is shown at this location on the 1915 Water Works Improvements Map.

Indicates the chief topographical features, such as streams and elevations. Also indicates houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1925, 1 1/2-story wood frame Bungalow with a stone foundation, brick veneer, and a gable roof of asphalt shingles. The front has 2 bays and the side has 3 bays. On the main facade is a full porch with a shed roof of asphalt shingles, square brick columns, and a solid wood railing. The main entrance is a multi-light glass and wood door. The windows are 1/1 wood sash with header course brick lintels and sills. A shed roof dormer with 2 windows and brick veneer and vinyl siding is on the north facade. There are 2 exterior wall brick chimneys on the east and west facade.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling with a 1-story wood frame garage is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. The current owner is the Finke family. Mel Frank may have been the original owner.

42. The dwelling is a ca. 1920, 1 1/2-story wood frame Pyramid Square with a stone foundation, vinyl siding, and a hipped roof of asphalt shingles. The front has 3 bays and the side has 3 bays. An extended bay with 2 windows is on the east facade. On the main facade is a 3/4 porch with a shed roof of asphalt shingles, wood Tuscan columns, and an open railing with square wood balustrade. The main entrance is a single light glass and wood door. The windows are 1/1 wood sash. Hipped roof dormers are on the south, east, and west facades.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling with a 1-story wood frame garage is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean homestead.

42. The dwelling is a ca. 1930, 1 1/2-story wood frame English Cottage plan with a concrete foundation, wood shingles siding, and an intersecting gable roof of wood shingles. The front has 2 bays and the side has 2 bays. On the main facade is an extended entry bay with a projected gable roof of wood shingles with square wood columns. Also on the north is a concrete patio with wood posts and railing. The main entrance is a single light glass and wood door. The windows are 6/1 wood sash with an awning on the north facade. Two gable roof dormers with 1 window are on the west facade. There is a central interior wall brick chimney. An attached breezeway and original wood frame garage with gable roof are on the south facade.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. Nothing is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps.

42. The dwelling is a ca. 1915, 1 1/2-story wood frame Open Gable plan with a stone foundation, asbestos shingles, and a gable roof of standing seam metal. The front has 3 bays and the side has 3 bays. On the main facade is a 3/4 porch with a shed roof of standing seam metal, wood Tuscan columns, and an open wood railing with square wood balusters. The main entrance is a single light glass and wood door with a single light transom. The windows are 1/1 wood sash. In the gable field of the main facade are 3 1/1 wood sash windows divided by fluted pilasters. Shed roof dormers are on the east and west facades. There is an interior wall brick chimney.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2 story wood frame dwelling with a 1-story wood frame garage is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean homestead.

42. The International Shoe factory Complex is composed of three buildings: Building One is the original three-story brick building which was completed in 1907; Building Two is a two-story building completed in 1914; and Building Three is a one-story building constructed 1922-23. All three buildings are connected by one- to two-story wings. Building One is of brick construction with a concrete foundation, flat roof, and was built in a rectangular plan. This building retains its original 6/6 sash windows with concrete sills. The main entrance into the complex is located in the north facade of the three-story connecting wing built in 1914. This entrance has double doors of six-light and three panel glass and wood design. Over the door is a six light transom. At the southwest corner of the building is a two-story brick wing containing the heating plant with a brick smokestack.

Building Two has original doors of four light and two panel glass and wood design. Windows are both 6/6 rectangular wood sash and multi-light steel and glass casement design. Above the windows are soldier course lintels. Windows on the north facade have jack arching and concrete keystones on the second story. At the roofline is a stepped parapet.

Building Three has a concrete foundation and flat roof. Windows are multi-light steel and glass casement design. The windows have concrete sills and soldier course lintels.

At the rear of the complex is a large ca. 1945 frame warehouse with asbestos siding and a ca. 1950 metal Quonset hut.

43. The International Shoe Company complex had a major impact on the growth and development of the west section of Washington in the 20th century. The history of the company is illustrated on the attached articles.
HISTORY OF INTERNATIONAL SHOE COMPANY

By L. Fred Kruehl

Washington's opportunity to get a branch factory of the Robert, Johnson & Rand Shoe Company arrived itself rather unexpectedly on October 1, 1906, when Edgar E. Rand and Oscar Johnson came to this city to meet with some of the business men and inform them that it was the firm's wish to locate a branch factory here.

Subsequently, a meeting was called here by the Citizens' Improvement Association and those present discussed the matter. The chairman appointed E. G. Busch, F. W. Stumpe, E. C. Stuart and G. H. Otto as a committee to visit the shoe company's branch factories at Hannibal and St. Charles. This committee also went to St. Louis to meet with company executives and make inquiry as to how Washington could make a bid for the factory in prospect.

On November 12, 1936, F. W. Stumpe, G. H. Otto, John J. Ernst, J. H. Thias, J. R. Gallimore and Dr. John Isbell met with shoe company representatives in St. Louis, and it was at this meeting that the local committee obtained absolute assurance that a branch factory would locate here if the citizens of Washington would raise a bonus of $35,000.00. The committee was also assured that the factory would come with the obligation to expend in wages to employees the sum of one million dollars within the period of ten years.

The fact that the Roberts, Johnson and Rand Shoe Company decided to locate a plant here was a great triumph for Washington in that several other cities were also making a bid for it. The cities were Anderson, Ind., Cairo, Ill., Cape Girardeau, Mo., and DeSoto, Mo. The Indiana city offered a bonus of $150,000, and Cairo, Ill., offered $100,000.

Having the assurance that the factory would locate here if the bonus money could be raised, the Citizens' Improvement Association sought ways and means to accomplish that goal. The decision reached was to sell building lots in the west end for $200 each. The lots were to measure 30x100 feet. Various options were procured and transferred to Fred Hawley, trustee, who acted subject to the wishes of the Finance and Shoe Factory Committee, namely: F. W. Stumpe, G. H. Otto, H. H. Nolting, John Isbell, G. H. Thias, O. W., H. Otto, E. C. Smart, Edw. F. Jasper, John J. Ernst, E. H. Otto and J. R. Gallimore. This committee, as well as the citizens of Washington, received much encouragement from the ex-mayor of Jefferson City, the mayor of Hannibal, and the publisher of the St. Charles newspaper.

The lot sale was successfully carried out, and all but 24 of some 300 lots were sold by the time the factory site was located. This site was an McLean Estate situated on the south side of Second Street.

Oscar Frick and August Noelker received the contract to make the excavation, and the factory building to cost $62,000.00, and ground was broken on February 12, 1907. A force of workmen with seven teams was engaged on the east side of the McLean tract. Plans called for the engine room on the east side and a 200-foot basement on the south side. The size of the building was to be 50 feet wide and 250 feet long, on an 18-inch concrete foundation.

Erection of the building was under the supervision of W. J. Hatfield and C. A. Moore, two large St. Louis contractors. F. W. Frensdorf was the superintendent of construction.

Workmen completed the foundation on March 22, 1907, and the masons began laying the brick. Carpenters were engaged laying the joists and setting the door and window frames.

In May, the bricklayers had completed their work and the carpenters made preparations to lay the roof. The engine for the factory arrived on May 12, and the boiler and radiators arrived two weeks later.

As the building neared completion, some fear was expressed that Washington would not have enough homes to provide houses for factory employees who would have to locate here. In editorials and advertisements in the local newspapers, investors were urged to have homes erected. This met with encouraging response.
The shoe company's obligation to the citizens and lot buyers was published in the local newspapers on May 24, 1907. The company came here with this statement: "We give you $1.00 for every 4 cents you give us."

About the middle of June, 1907, the Citizens' Improvement Association began advertising for labor. At the same time, J. N. Wilkes, in charge of the stitching department, and Joe Collett, general overseer, moved to Washington.

The factory building was dedicated on the evening of June 21, 1907, and the Washington Concert Band, under the direction of Edwin Spaunhorst, sponsored a public dance on the second floor, which was largely attended.

Early in July, Supt. Griffin Watkins got the factory ready for operation. He stated that 500 persons would be employed and that the daily output would be 3,500 pair of shoes.

The factory got in operation in short order in July, with the following personnel in the various departments:

- Frank Harrington, superintendent of the cutting department; J. W. Wilkes, manager of the stitching room, with Miss Watermann as assistant; E. E. Tourtellot, as manager of the leather department; E. H. Poyer, in charge of the standard screw bottoming department; Thos. J. Nugent, manager of the Goodyear bottoming department; R. P. McElwain, manager of the finishing department; Joe Collette, overseer of the various departments. F. M. Smith was put in charge of the branch factory's office here.

The factory provided steady employment, and in a little more than one-half of 10 years (6½ years, to be exact) it fulfilled its obligation to pay out one million dollars in wages in Washington.

In 1914, the original building proved inadequate to take care of the increased capacity required for growing production and Oscar Johnson, president of the firm now known as the International Shoe Company, interviewed G. H. Otto, O. W. Arcularius and John J. Ernst on June 2, 1914, regarding the erection of an addition to the factory here. The company asked a bonus of $17,500. The local committee at first offered $5,000 which was taken under advisement; however, two weeks later a bonus of $17,000 was practically assured.

The cost of the new building was set at $20,000, and the Shoe and Finance Committee planned raising the bonus it offered by selling and distributing fractional building lots. By the end of June, $10,000 of the bonus had already been raised.

This first addition to the local branch factory was to be used for storing leather on the first floor and using the second floor for a cutting room. The size of the building was to be 30x165 feet, to be located west of the original building. Bricks used in its construction were manufactured by the Washington Dry Press Brick plant, the estimated number of bricks required being 300,000.

Nine years later, in January, 1923, a committee was again organized in Washington to raise $10,000 for a second addition to the factory. This was to be a one-story building 42x220 feet, and when completed would enable the company to give employment to 300 more men and women.

At the close of January, 98 local firms and citizens contributed the $10,000 and the contract to erect this second addition was awarded to Lohnmeye & Shulte of Washington. Adam Rau was given the contract to make the foundation. The building was completed in May of the same year.

There were four other smaller additions to the plant here, one in 1918, one in 1929, and the last in 1947. Thus the present plant now has an outside area of 131,204 square feet. The first building measured 53,072 square feet.

Since the beginning 50 years ago, the Washington factory paid out in wages a total of $55,000,000. It has an annual payroll of $1,000,000, and at present employs approximately 930 persons. It has, at peak production, employed as many as 1400. The daily output of shoes now numbers 7,500 pairs.

42. One-story brick and metal building constructed ca. 1925. On the main (N) facade are original wood sliding track doors. The doors have inset eight light fixed windows. The rear section of the building has ca. 1970 metal panels as exterior siding materials.

43. This industrial building was completed ca. 1925 to serve as a warehouse for the International Shoe Factory. The building is shown on the 1926 Sanborn map. It is presently used for storage.
Building is part of the shoe factory complex located in an urban neighborhood.
Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

*Please Attach* a copy of a topographic map with the site marked on it.
42. One-story brick building built as part of the International Shoe Factory. The building’s doors are obscured and are not visible. Above the entrance is a belt course of soldier course brick. At the roofline is a stepped parapet with concrete coping.

43. This building was constructed ca. 1925 as part of the International Shoe Company factory complex. The building is located to the south of building No. 1 and is shown on the 1926 Sanborn Map as a warehouse and machine shop. The building is presently used for storage.

42. The building is a ca. 1930, 2-story commercial building. The building has a chamfered corner entrance with a concrete foundation, brick veneer, and a parapet roof of composite materials. The front has 4 bays and the side has 4 bays. The original corner entry had bulkhead/kickplate below windows with copper mullions. The transom and the lower portion of the plate glass windows have been boarded up. The new entrance is on the north and has a wood door with a single light transom. The upper windows are 1/1 wood sash with soldier course lintels. There is a corbelled brick cornice. Added metal awnings are on the north and east facades. There are interior wall brick chimneys on the east and west facades. A 1-story brick veneer addition with a 2nd story wood frame addition with single-light windows is on the west facade. Also on the west facade is a 1-story wood frame addition with asbestos shingles siding and window counters. To the south is an attached storage area which connects site 552 with a ca. 1930 gas station, (site 567).

43. This building is part of the development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. Nothing is shown on this lot on the 1908/1916/1926 Sanborn map. This lot is not shown on the earlier Sanborn map. This building was constructed ca. 1930 and housed a grocery store and other businesses during the mid-20th century. It presently houses several commercial businesses. The building is the best example of a corner neighborhood store in the proposed International Shoe Factory Historic District.

42. The dwelling is a 1922, 1 1/2-story wood frame bungalow with a concrete foundation, brick veneer, and a gable roof of standing seam metal. The front has 3 bays and the side has 3 bays. On the main facade is a full porch with wood Tuscan columns and an open railing with square wood balustrade. The main entrance is a triple vertical light glass and wood door set within a segmental arch of two courses of header brick. The windows are 1/1 wood sash set within a segmental arch of single course header brick. A gable roof dormer with 4 windows is on the south. There are wood shingles in the gable fields and knee braces at the eaves.

43. The dwelling was built for in 1922 Charles Brune. The current owner is Emil Perschbacher. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling with a 1-story masonry garage is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps.

Sketch map of location

Section ____________________________ Township ____________________________ Range ____________________________

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
The dwelling is a ca. 1920, 1 1/2-story wood frame Pyramid Square plan with a stone foundation, asbestos shingles siding, and a hipped roof of standing seam metal. The front has 3 bays and the side has 3 bays. On the main facade is a 3/4 porch with a shed roof of standing seam metal, square wood columns with recessed panels, and an open railing with square wood balustrade. The main entrance is a multi-light glass and wood door. The windows are 1/1 wood sash. Hipped roof dormers are on the north, east, and west facades. There is a central interior wall brick chimney.

This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling with a 1-story wood frame outbuilding and a 1-story wood frame garage is shown on this lot as 810 W. Second St. on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate.

42. The dwelling is a ca. 1930, 1 1/2-story wood frame Pyramid Square plan with a concrete foundation, asbestos shingles siding, and a hipped roof of asphalt shingles. The front has 3 bays and the side has 3 bays. An extended bay is on the east facade. On the main facade is an incised porch with tapered wood columns on brick piers, and a solid wood railing. The main entrance is a multi-light glass and wood door. The windows are 1/1 wood sash. A hipped roof dormer with 3 windows is on the north facade and shed roof dormers with 2 windows are on the east and west facades. There is a central interior wall brick chimney.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. Nothing is shown on this lot on the 1893/1908/1916/1926 Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate.
House is located in an urban neighborhood. No outbuildings.

42. The dwelling/duplex is a ca. 1900, 2 1/2-story wood frame American four-square with a stone foundation, brick veneer, and a hipped roof of asphalt shingles. The front has 4 bays and the side has 2 bays. On the main facade is an entry porch with Tuscan columns and an added ca. 1970 wrought iron balustrade. The main entrance is a single light glass and wood door with a single light transom. The altered second floor entrance is a wood panel door with a single light transom. The windows are 1/1 wood sash with header course sills set within segmental arches of one course of header brick. Ornamental shutters are on windows of the main facade. A hipped roof dormer with 2 windows are on the main facade. There are interior wall brick chimneys on the east and west facades.

43. This dwelling/duplex existed prior to the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 2-story brick flat with a 1-story wood frame outbuilding is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was owned by Henry Schriever on the 1898 Atlas and the 1919 Atlas.

Note: This is probably the one most important part of this data form.

Please attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1930, 1-story wood frame gable front Bungalow with a concrete foundation, brick veneer, and a gable roof of asphalt shingles. The front has 3 bays and the side has 3 bays. On the main facade is an entry bay porch with a gable roof of asphalt shingles, paired square wood columns on brick piers, and an open wood railing. The main entrance is a newer multi-light glass and wood door. The windows are 6/1 wood sash with header course sills.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This lot is not shown on the 1893/1908/1916/1926 Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate.

42. The dwelling is a ca. 1920, 1 1/2-story wood frame Pyramid Square plan with a stone foundation, weatherboard siding, and a hipped roof of standing seam metal. The front has 3 bays and the side has 4 bays. On the main facade is a 3/4 porch with a hipped roof of standing seam metal, square Doric motif wood columns, and a solid wood railing. The main entrance is a single light glass and wood door with a single light transom. The windows are 1/1 wood sash. Hipped roof dormers are on the north, east, and west facades. There is an interior wall brick chimney on the west facade.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This lot is not shown on the 1893/1908/1916/1926 Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. 42. The dwelling is a ca. 1900, 1 1/2-story brick gabled ell with a stone foundation, 6-course common bond exterior, and a gable roof of asphalt shingles. The front has 4 bays and the side has 3 bays. On the main facade is an other bay porch with a hipped roof of asphalt shingles and ca. 1970 wrought iron columns and railing. The main entrance is a single light glass and wood door with a single light transom set within segmental arch opening. The windows are 1/1 wood sash with wood sills and set within segmental arches of two course header brick. A shed roof dormer with 1 window is on the north. The exterior walls have star anchors. There is an interior wall brick chimney.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800’s when the street was the western edge of Washington. A 1 1/2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot (with 508 W. Third St. address) on the 1926 Sanborn map. Just the dwelling is on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the atlas, it was owned in 1919 by Altmueller.

42. The dwelling is a ca. 1860, 2-story brick structure with a stone foundation, 6-course common bond exterior, and a gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. The main entrance is located in a recessed vestibule and has an original single light glass and wood paneled door with a single light transom. At the vestibule opening is a ca. 1920 8-light glass and wood door and the opening has a segmental arch of 2-course header brick. The windows are 1/1 wood sash with original louvered shutters and are set within segmental arches of 2-course header brick. At the roof line is a corbelled brick cornice with dentils. In the gables are two small arched 1/1 sash windows. There are interior wall brick chimneys. On the south is a 1-story shed roof wing added ca. 1910.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800's when the street was the western edge of Washington. A 2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1926 Sanborn map. It's 2 1/2-story on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1869 Bird's Eye View and on the 1915 Water Works Improvements Map. According to the atlas, it was owned in 1919 by William Stumpe and is part of the Walkenhorst’s addition.

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

**THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!**

*Please Attach a copy of a topographic map with the site marked on it.*
42. The dwelling is a ca. 1870, 1 1/2-story brick structure with a stone foundation, 5-course common bond exterior, and a gable roof of asphalt shingles. The front has 5 bays and the side has 2 bays. On the main facade is a central bay porch with wrought iron columns and railing. The main entrance has a ca. 1980 glass and wood door with an original rectangular transom. The windows are 1/1 rectangular sash added ca.1980. They are set within segmental arches of single course stretcher brick and have wood sills. Hipped roof dormers are on the south. At the roof line is a corbelled brick cornice with dentils. There is an exterior wall brick flue added ca.1940. On the north is a ca. 1980 wood frame addition with a shed roof.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800’s when the street was the western edge of Washington. A 1 1/2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1916 and 1926 Sanborn maps. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. It’s part of the Walkenhorst’s addition.

*Please Attach a copy of a topographic map with the site marked on it.*
42. The dwelling is a ca. 1920, 2-story brick bungalow with a stone foundation, stretcher bond exterior, and a gable roof of asphalt shingles. The front has 2 bays and the side has 4 bays. On the main facade is a full porch with a hipped roof of asphalt shingles, tapered wood columns on brick piers, and an open railing with square wood balusters. A section of this porch has a gable roof supported by knee brace brackets. The main entrance is a solid wood door added ca. 1950. A secondary entrance on the east has an original single light glass and wood door. The windows are 1/1 wood sash with those on the east and west set within segmental arches of two course header brick. Windows on the main facade have soldier course lintels. Shed wall dormers with 2 arched 1/1 wood sash windows are on the east and west. There is an interior wall brick chimney.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800's when the street was the western edge of Washington. A 2-story masonry dwelling is shown on this lot on the 1926 Sanborn map. Nothing is shown on this lot on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps.
House is located in an urban neighborhood on a corner lot. There are no outbuildings.
Indicates the chief topographical features, such as streams and elevations. Also indicates houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1900, 2-story wood frame gabled ell with a stone foundation, wood shingle exterior, and a gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. On the main facade is an other bay porch with a shed roof of asphalt shingles, turned wood columns and an open railing with square wood balusters. The main entrance is a single light glass and wood paneled door with a single light transom. The windows are 1/1 wood sash. A hipped roof dormer with 1 window is on the main facade. There is an interior wall brick chimney.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800’s when the street was the western edge of Washington. A 2-story wood frame dwelling is shown on this lot on the 1916 and 1926 Sanborn maps. This lot is not shown on the earlier Sanborn maps. It’s part of the Walkenhorst’s addition.

42. The dwelling is a ca. 1860, 1 1/2-story brick structure with a stone foundation, 5-course common bond exterior, and a gable roof of standing seam metal. The front has 5 bays and the side has 4 bays. On the main facade are 2 entrances with original 4-panel wood doors and 3-light transoms set within segmental arches of single course header brick. The windows are ca. 1980 1/1 rectangular sash with wood sills set within segmental arches of single course header brick. Several windows have modern wood shutters. Two gable roof dormers with 1/1 sash windows are on the north. At the roof line is a corbelled brick cornice with dentils. There are 4 interior wall brick chimneys. On the south is a ca. 1910 1-story brick addition with a shed roof.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800’s when the street was the western edge of Washington. A 1 1/2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1916 and 1926 Sanborn maps. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1869 Bird’s Eye View and on the 1915 Water Works Improvements Map. According to the atlases, it is part of the Walkenhorst’s addition.

Indicate part of section included in sketch map.

Notes:

This is probably the one most important part of this data form!

Please attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1910, 1 1/2-story brick Open Gable plan with a stone foundation and a gable roof of standing seam metal. The front has 3 bays and the side has 3 bays. On the main facade is a 3/4 porch with a hipped roof of standing seam metal, wood Tuscan columns, and an open railing with square wood balusters. The main entrance is a single light glass and wood door with a single light transom set within a segmental arch of two course header brick. The windows are 1/1 wood sash set within segmental arches of two course header brick with awnings on the south, east, and west facades. There are interior wall brick chimneys on the east and west facades. On the north facade is a 1-story wood frame addition.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This lot is not shown on the 1893/1908/1916/1926 Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Fred H. Luehrs estate. A building is shown at this location on the 1915 Water Works Improvements Map.

The dwelling is a ca. 1890, 1 1/2-story brick Hall and Parlor plan with a stone foundation and a gable roof of asphalt shingles. The front has 4 bays and the side has 3 bays. On the main facade is a ca. 1970 porch with a shed roof of asphalt shingles and wrought iron posts and railing. The main entrance is a single light glass and wood door with a single light transom set within a segmental arch of header course brick. The windows are 1/1 wood sash set within segmental arches of header course brick with working wood shutters. Gable roof dormers with 1 window are on the south facade. There is an interior wall brick chimney on the north facade. Also on the north facade is 1-story wood frame addition and a concrete patio.

This dwelling existed prior to the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This lot is not shown on the 1893/1908/1916/1926 Sanborn maps. This lot was owned by H. Merczel-Meyer on the 1919 Atlas. It had previously been part of the Elijah McLean estate. A building is shown at this location on the 1915 Water Works Improvements Map.

Sketch map of location

Section ____________________________ Township ____________________________ Range ____________________________

Indicates the principal topographical features, such as streams and elevations. Also indicates houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Indicates part of section included in sketch map.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
Site Number: 642 (continued)

42. The dwelling is a ca. 1910, 1 1/2-story wood frame Gabled Ell plan with a stone foundation, asbestos shingles, and an intersecting gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. On the main facade is a one-story porch with a hipped roof of asphalt shingles, turned wood columns, and an open railing with square wood balusters. The 2 main entrances are single light glass and wood doors with a single light transoms. The windows are 1/1 wood sash. A gable roof dormer with 2 window is on the south facade.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate. A building is shown at this location on the 1915 Water Works Improvements Map.

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

This is probably the one most important part of this data form!

Please attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1935, 1 1/2-story wood frame dwelling with a concrete foundation, vinyl siding, and a gable roof of asphalt shingles. The front has 3 bays and the side has 3 bays. On the main facade is a central bay porch with a gable roof of asphalt shingles and wrought iron posts and railing. The main entrance is a semi-circular multi-light glass and wood door. The windows are 1/1 wood sash with awnings on the south facade. There is a central interior wall brick chimney. On the north facade is a 1-story wood frame addition.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. Nothing is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate.

Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1920, 1 1/2-story wood frame Open Gable plan with a concrete foundation, asbestos shingles, and a gable roof of asphalt shingles. The front has 3 bays and the side has 5 bays. On the main facade is a 3/4 porch with a shed roof of asphalt shingles and wrought iron posts and railing. The main entrance is a single light glass and wood door. The windows are 1/1 wood sash on original south section and 1/1 aluminum sash elsewhere. There is a central interior wall brick chimney. Two 1-story wood frame additions are at the north facade. The northern addition has a full basement. On the east facade are two wood stairs and landings to entrances.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate.

42. One-story frame, false front commercial building. On the main (S) facade are three bays. The west bay contains three multi-light glass and wood paneled garage doors. The central entrance has a ca. 1980 metal and glass door. The east bay has an original display window with a 6-light rectangular transom. A similar transom is located above the garage doors. At the roofline is a false front stepped parapet. The east and west facades have windows which are original 24-light steel casement design. The interior is composed of open floor space.

43. This commercial building was constructed ca. 1930. It is not shown on the 1926 Sanborn map.

42.  1 1/2-story brick single pen dwelling. The house has two interior wall brick chimneys and an exterior of 6-course common bond brick. A scored stucco surface has been added to approximately two feet above grade on all facades. The main entrance has a ca. 1920 gable roof stoop and ca. 1940 glass and wood door. Over the door is a jack arch. Windows are original 6/6 wood sash with jack arches and wood sills. At the roofline is a corbelled brick cornice. In the gable fields are 6/6 sash windows set within single course segmental arches.

43.  Built by Muckelstorm family ca. 1870. It is shown on the 1915 Waterworks map.

45.  Owner.

Site Number: 944 (continued)

42. One-story brick, 5-bay, rectangular plan dwelling with a ca. 1890 2-bay addition. The original section has four interior wall chimneys and exterior of 5-course common bond brick. On the main (S) facade is a single bay shed roof porch added ca. 1910 with square Doric motif columns. The main entrance has a single light glass and wood door. Flanking the door are 4-light sidelights and above is a 7-light rectangular transom. Windows are ca. 1910 1/1 rectangular wood sash with wood sills, original louvered shutters and single course jack arches. At the roofline is a corbelled brick cornice. On the east facade is a rectangular 2-bay brick addition of 5-course common bond brick. This addition has a single light glass and wood door with a single light transom. Windows are 1/1 rectangular wood sash with jack arches. This wing has a corbelled brick cornice and flat roof. At the rear is a one-story frame porch. The interior retains original grained 4-panel doors and newel post.

43. Built ca. 1850. The dwelling is shown on the 1915 Waterworks map and may be on the 1869 Bird's Eye View of the city.

42. One-story brick false front commercial building. The main (N) facade has three bays. The east bay has two sets of original hinged doubled doors of multi-light glass and wood design. Over the doors is a hinged 16-light glass and wood transom with four sections containing 4 lights. Over the bay is a soldier course lintel. The central bay contains an original 4-light and 2-panel door and 2-light rectangular transom. The west bay has a multi-light steel and glass display window. Attached to the west facade is a frame wing or addition with a corner entrance. This entrance has a 6-light glass and wood door and rectangular transom. Windows on the west and south facades are multi-light steel and glass casement design. On the east facade is a ca. 1946 one-story frame addition.

43. Building was constructed 1931-33 as an auto repair shop and was later an auto dealership. Built by Clarence Stumpe.

45. Owner.

42. 1 1/2-story brick 5-bay residence. On the main (N) facade is an original 2-bay shed roof porch with milled columns and an added solid wood railing. On the main facade are two entrances with 2-light and 2-panel doors. Windows are rectangular 6/6 wood sash with wood lintels and sills. The windows also have original louvered wood shutters. At the roofline is a corbelled brick cornice. The house has an exterior of 5-course common bond brick and two interior wall chimneys. In the gable ends are two, 4-light casement windows.

43. Originally owned by the Charles Helm family. Charles Helm was a factory worker. The dwelling was built ca. 1870. It is shown on the 1915 Waterworks map.

45. Clarence Stumpe, owner.

Site Number: 947 (continued)

42. Two-story brick building constructed as a multi-family dwelling. The house has an exterior of 5-course common bond brick and two interior wall brick chimneys. On the main (N) facade is an entrance which leads into the first floor level. This entrance has a ca. 1930 multi-light glass and wood door. Flanking this door is a ca. 1960 multi-light picture window. Other windows are original 4/4 arched wood sash set within single course segmental arches. On the east facade are three entrances. The south entrance has a single light glass and wood door set within a segmental arch of 2-course header brick. The north entrance has a 4-panel door above which is a 3-light rectangular transom. This entrance is set within a single course segmental arch. The entrance at the rear was added ca. 1920 to connect to the upper floor. The rear section has a 4-panel door and connects with the attached kitchen.

43. Hamman House, built for Henry Hamman family. Mr. Hamman sold insurance. The house was built ca. 1880. It is shown on the 1915 Waterworks map.

45. Clarence Stumpe, owner.

Site Number: 952 (continued)

42. Two-story brick gable front commercial building. The building retains its original storefront on the main (N) facade. This storefront has a recessed entrance with double doors of single light glass and wood design. Over the doors is a two-light transom. Flanking the entrance are display windows resting on frame bulkheads. Above the display windows are rectangular transoms. In the (W) bay is a single light glass and wood door which leads to the second story staircase. Above this door is a single light transom. Windows are rectangular 1/1 wood sash. In the (W) bay of the second story is a single light glass and wood door which originally opened onto a second floor balcony. This balcony has been removed. On the (W) facade is a one-story porch and secondary entrance. At the roofline of this facade is a shed dormer with two 1/1 sash windows.

43. This commercial building was constructed ca. 1930 - it does not appear on the 1926 Sanborn map.

Site Number: 950 (continued)

42.  1 1/2-story brick building. At the rear is a ca. 1980 frame addition. On the main (N) facade is an entrance with a ca. 1980 glass and wood door, shutters, and pediment. Windows are ca. 1980, 1/1 sash set within segmental arches of single course stretcher brick. Windows openings on the west facade have been enclosed with brick. The interior has been remodeled for commercial use.

43.  This building was constructed ca. 1900. It does not appear on the 1915 map but the building appears to pre-date 1910.

45.  1915 Waterworks map.

42. Two-story frame commercial building with an added exterior of asbestos shingles. The storefront retains its original frame bulkheads and display windows. The entrance has a ca. 1970 aluminum and glass door. The east bay of the building has an original single light and three-panel door which leads to a second story staircase. Across the width of the facade is a metal awning. On the (E) facade of the building is a ca. 1930 one-story wing. This wing has original frame bulkheads and display windows. The main entrance has a single-light glass and wood door. The second story of the original section has rectangular 1/1 sash windows. At the rear is a one-story gable roof wing.

43. This commercial building was constructed ca. 1930. It is not shown on the 1926 Sanborn map.

This is probably the one most important part of this data form:

Please attach a copy of a topographic map with the site marked on it.
Site Number: 996 (continued)

42. One-story frame commercial building. The exterior wall surface of the first story has been altered with the addition of ca. 1970 vertical framing. In the gable dormers of the main facade is original wood siding and half-timbering. The main entrance and display windows were altered ca. 1970 with an aluminum and glass door and single light windows. In the east bay of the building is an original garage bay with a fourteen-panel glass and wood overhead track door. At the roofline are two gable dormers. The interior has been remodeled.

43. This building was constructed ca. 1930 as a gas station on old Highway 100 (W. 5th Street). In recent years it has been converted into offices. The building is not shown on the 1926 Sanborn map.

45. 1926 Sanborn map.

42. 1 1/2 story brick dwelling constructed in an ell plan. The exterior of the building is of 5-course common bond brick. The house has an interior brick chimney. On the main (S) facade is an entrance with an original single light and two-panel glass and wood door. Over the door is a four-light rectangular transom. Windows are original 5/6 and 4/4 rectangular wood sash. Over the windows and door are jack arches. The ell wing is presently being rebuilt with the exterior brick walls removed and wood siding added. This wing has some sections of original vergeboard at the eaves. At the rear facade is a ca. 1970 staircase leading to a second floor entrance.

43. This brick dwelling was built ca. 1870. It is shown on the 1915 Waterworks map.

45. 1915 Waterworks map.

House is located in an urban neighborhood. Adjacent to the house is a ca. 1930 frame shed.
Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

This is probably the one most important part of this data form!

Please attach a copy of a topographic map with the site marked on it.
42. One-and one-half story brick house, rectangular in plan with a stone foundation. Brick corbelling with dentils at the roofline. The house has a gable roof of standing seam metal and an interior wall chimney. The main entrance is a two panel glass and wood door added ca. 1950 with a metal and glass storm door. Over the door is a two-light rectangular transom set in a segmental arch. Windows are original rectangular 4/4 sash set within segmental arches and have wood sills.

43. This dwelling was constructed ca. 1870. Its original owner is unknown but the Hahne family occupied the dwelling in the early 20th century. This family was involved with the printing business in Washington.

42. Two-story brick, double-pen, Greek Revival influenced dwelling. The house is of brick construction with an exterior surface of stucco added in the early 20th century. The main facade has six bays with two primary entrances. Entrances have original four panel wood doors with four-light transoms. Windows are six-over-six rectangular wood sash. At the roofline is a wooden cornice with dentils. On the main facade is a one-story partial width porch with milled columns added ca. 1890. Under the porch roof are cast iron brackets. On the rear facade is an original two-story porch with Doric motif columns at the second floor and milled brackets. The interior has architrave molding and four panel doors. Fireplace openings have been bricked in and replaced with flue openings. At the rear is a one-story hipped roof brick outbuilding with six-over-six sash windows, original four panel wood door, and jack arches over the fenestration.

43. This dwelling was built ca. 1847 on the bluff overlooking the Missouri River. The original owner is unknown but by the 1870s it was the home of steamboat captain E.M. Baldwin. He operated boats on the Missouri River in the mid-19th century. Baldwin was a famous river pilot and this residence was known as "Lazy Lodge". Baldwin died on November 13, 1914. The dwelling is also known as the Henry Bentinck House.

42. Two-story brick I-House built ca. 1880. The house has a brick foundation, gable roof of asbestos shingles, and brick exterior. The interior of the house was recently gutted by fire and all doors and windows are recent replacements. The window openings have original jack arches. Across the main facade is a ca. 1950 two-story wood porch. The house has two exterior wall brick chimneys. At the rear is a one-story brick ell.

43. This brick dwelling was built ca. 1880 but the interior was gutted by fire in recent years. It is presently being renovated. The dwelling was built as part of the Henry Noelker farm of 80 acres. Noelker came to Washington in 1843 from Germany and operated this farm for many years. In 1898 it was owned by Peter Brinker.

45. 1878 and 1898 Atlas’.
See continuation sheet.

See continuation sheet.

House is located on a corner lot in an urban neighborhood. There are no outbuildings.

Site Number: 822 (continued)

42. The dwelling is a 1 1/2-story brick double pen with a stone foundation, 7-course common bond exterior, and a gable roof of asphalt shingles. The front has 4 bays and the side has 2 bays. On the main facade is a central bay porch with a gable roof of asphalt shingles, vergeboard at the eaves, square wood columns with recessed panels, and an open railing with square wood balusters. The main entrances have single light glass and wood doors with 3-light transoms. The windows are 1/1 and multi-light wood sash with wood sills and are set within segmental arches of soldier course brick. Only one set of shutters remain. At the roof line is a corbelled brick cornice with dentils. There are interior wall brick chimneys on the east and west. On the south are a 1-story brick addition, a 1-story wood frame addition, and a shed roof porch with square wood columns and baluster.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 1 1/2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1916 and 1926 Sanborn maps. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the 1919 atlas, it is on the eastern portion of Lot 1 of Unlenbrock's Addition.

42. The dwelling is a 1 1/2-story brick structure with a stone foundation, 6-course common bond exterior, and a hipped roof of asphalt shingles. The front has 4 bays and the side has 2 bays. On the main facade is a wrap-around porch with a shed roof of asphalt shingles, frieze with dentils, wood Ionic columns, and an open railing with turned wood balusters. The eastern section of the porch has been enclosed and contains a barber shop. The main entrance has a single light glass and wood door with a single light transom. A secondary entrance on the south also has a single light door. The windows are 1/1 wood sash set within segmental arches of 2-course header brick. Hipped roof dormers with vertical 2/2 wood sash windows are on the south and north. There is an interior wall brick chimney on the west. On the north is a 1-story wood frame porch with a deck above.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. It was built by Ruedher, a mayor of Washington. James R. Watters has owned it for the past 38 years. According to him, the house was featured in a Better Homes & Gardens article in 1991. A 2-story dwelling with two connected 1-story wood frame outbuildings is shown on this lot (as 502 W. Fifth St.) on the 1926 Sanborn map. The dwelling with only 1 of the connected outbuildings and a different 1-story wood frame outbuilding is shown on this lot on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the 1919 atlas, it is on the eastern portion of Lot 2 of Uhlenbrock's Addition.

- OFFICE OF HISTORIC PRESERVATION
  P.O. BOX 176
  JEFFERSON CITY, MISSOURI 65102
  PH. 314-751-5365
Indicates the chief topographical features, such as streams and elevations. Also indicates houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

This is probably the one most important part of this data form. Please attach a copy of a topographic map with the site marked on it.
42. The dwelling is a 1 1/2-story wood frame bungalow with a concrete foundation, asbestos shingles exterior, and a gable roof of asphalt shingles. The front has 3 bays and the side has 3 bays. On the main facade is a 3/4 porch with a shed roof of asphalt shingles, asbestos covered wood frame columns, and an open railing with square wood balusters. The main entrance has a multi-light glass and wood door. The windows are vertical 4/1 and 3/1 wood sash. An awning is on the south over a secondary entrance with a single light glass and wood door. A shed roof dormer with 3 windows is on the south. On the north is a shed roof porch with square wood columns and balusters.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 1 1/2-story wood frame dwelling with a 1-story wood frame garage is shown on this lot (as 513 W. Fifth St.) on the 1926 Sanborn map. Nothing is shown on this lot on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. According to the 1919 atlas, it is Lot 3 of Stephenson's Addition.

Sketch map of location

Section ___________________________ Township ___________________________ Range ___________________________

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a 1 1/2-story wood brick structure with a stone foundation, 7-course common bond exterior, and a hipped roof of asphalt shingles. The front has 4 bays and the side has 2 bays. On the main facade is a 1/2 porch with a deck above, wood Tuscan columns, and an open railing with square wood balusters. The deck has square wood posts and balusters. The main entrance has a single light glass and wood door with an infilled transom. The windows are 1/1 wood sash set within segmental arches of 2-course header brick. Some on the east and west have been infilled with brick and/or siding. Hipped roof dormers with 2 windows are on the south and north. There is an interior wall brick chimney on the west.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 2-story masonry dwelling is shown on this lot on the 1926 Sanborn map. The dwelling with a 1-story wood frame outbuilding this lot is shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the 1919 atlas, it is on the eastern portion of Lot 3 of Uhlenbrock’s Addition.

**48. DATE** 8/8/91

**49. REVISION DATE(S)**
Indicates the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Indicate part of section included in sketch map.

Notes:

**THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!**

*Please Attach a copy of a topographic map with the site marked on it.*
42. The building is a ca. 1920, 1 1/2-story wood frame structure with a concrete foundation, brick and stone veneer exterior, and a gable roof of metal shingles made to look like clay tiles. The front has 4 bays and the side has 1 bays. The openings on the main facade 1-story have segmental stone arches. Some of these openings have been infilled with wood panels. The central bay entrance has a single light glass and wood door with a single light transom and the other two have multi-light glass and wood doors. The windows are vertical 3/1 wood sash. Diamond shaped multi-light windows are in the gable fields on the south, east, and west. The center section is original with added wings to the east and west.

43. This building is part of the development around Stafford Street which began in the early 1800's when the street was the western edge of Washington. A 1-story wood frame gas station is shown on this lot on the 1926 Sanborn map. Nothing is shown on this lot on the 1908 and 1916 Sanborn maps. This lot is not shown on the earlier Sanborn maps. It is part of the Stephenson's Addition.

42. The dwelling is a 1 1/2-story brick structure with a stone foundation, 6-course common bond exterior, and a gable roof of asphalt shingles. The front has 3 bays and the side has 6 bays. On the main facade is a newer exterior brick wall with a single light glass and wood door and large single light windows. A shed roof dormer with 2 windows (used to be 3) is on the north. There are interior wall brick chimneys on the east and west. On the south is a 2-story wood frame addition with concrete foundation, asbestos siding, and a gable roof. A covered wood stair and landing are on the east leading to a 2-story entrance.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 1 1/2-story dwelling with a 1-story wood frame outbuilding and a 1-story wood frame garage is shown on this lot on the 1926 Sanborn map. All except for the outbuilding are shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the 1919 atlas, it is on the eastern portion of Lot 4 of Uhlenbrock's Addition.

42. The building is a ca. 1860, 2-story brick single entry commercial structure with a brick foundation, 6-course common bond exterior, and a gable roof of asphalt shingles. This roof is probably newer as the brick in the gable field is different from that below. The front has 4 bays and the side has 6 bays. On the main facade is an incised entry with a glass and aluminum door flanked by plate glass windows and Permastone on the 1-story. Several openings in the lower story have been infilled with brick. The upper windows are vertical 2/2 wood sash set within segmental soldier course arches. Awnings are on the south and east. At the roof line is a corbelled brick cornice with dentils. There is an exterior wall brick chimney on the west.

43. This building is part of the development around Stafford Street which began in the early 1800's when the street was the western edge of Washington. A 2-story masonry structure with two 1-story masonry outbuildings is shown on this lot on the 1908, 1916, and 1926 Sanborn maps. This lot is not shown on the 1893 Sarborn map. A building is shown at this location on the 1869 Bird's Eye View and on the 1915 Water Works Improvements Map. According to the atlas, it was owned in 1919 by H. W.

42. The dwelling is a 1 1/2-story wood frame structure with a stone foundation, weatherboard exterior, and a hipped roof of standing seam metal. The front has 3 bays and the side has 4 bays. An extended bay is on the east. On the main facade is a full porch with tapered wood columns on brick piers, and a solid wood railing. The main entrance has a multi-light glass and wood door. The windows are 1/1 aluminum sash in the 1-story and 1/1 wood sash in the upper story. Hipped roof dormers with 3 windows are on the south and north. On the south is a 1-story wood frame addition on concrete and wood piers and a shed roof porch with a dirt floor.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. Two 1-story wood frame outbuildings are shown on this lot on the 1926 Sanborn map. Nothing is shown on the portion of the lot on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps.

42. The dwelling is a 1 1/2-story brick central passage-single pile with a stone foundation, 6-course common bond exterior, and a gable roof of asphalt shingles. The front has 2 bays and the side has 2 bays. On the main facade is a central bay porch with a hipped roof of asphalt shingles, chamfered wood columns, curved wood brackets, turned spindles in frieze, and an open railing with turned wood balusters. The main entrance has a single/multi-light glass and wood door with a multi-light transom and multi-light sidelights. The windows are 6/6 wood sash with soldier course lintels and wood shutters. There are interior wall brick chimneys, 2 on the west and 1 on the east. Also on the east is an exterior wall brick chimney. A 1-story brick addition with brick foundation, 6-course common bond exterior, and flat roof of metal is on the south.

43. This dwelling is part of the development along Fifth Street which began in the early 1800’s when it first became a major east/west thoroughfare in Washington. A 2-story masonry dwelling with two connected 1-story outbuildings, 1 wood frame and 1 masonry, is shown on this lot on the 1916 and 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the atlases, it was owned in 1898 and in 1919 by H. Menzenworth.

Site Number: 830 (continued)

42. The dwelling is a 1 1/2-story brick structure with a stone foundation, 6-course common bond exterior, and a gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. On the main facade is a recessed vestibule with segmental soldier arched opening. The main entrance has a newer multi-light glass and wood door. The windows are single pane aluminum sash on the north and west and 4/4 and 6/6 wood sash with some altered openings on the east and west. There are an interior wall brick chimney and an exterior wall brick chimney on the west. On the south are a 1-story brick addition with flat roof and a 1-story shed roof porch with square wood columns.

43. This dwelling is part of the development along Fifth Street which began in the early 1800’s when it first became a major east/west thoroughfare in Washington. A 1 1/2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1926 Sanborn map. The outbuilding is not shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. According to the atlases, it was owned in 1898 and in 1919 by C. Meyer.

42. The dwelling is a 1 1/2-story brick gabled ell with a stone foundation, 6-course common bond exterior, and an intersecting gable roof of standing seam metal. The front has 3 bays and the side has 2 bays. On the main facade is a wrap-around porch with a hipped roof of standing seam metal, square wood columns, and an open railing with square wood balusters. The main entrance has a multi-light glass and wood door with a single light transom set within a segmental arch of 2-course header brick. A secondary entrance on the side is infilled with metal. The windows are 1/1 wood sash with concrete sills and are set within segmental arches of 2-course header brick. Gable roof dormers with single windows are on the west. There are interior wall brick chimneys on the east and west.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 1 1/2-story masonry dwelling with a 1-story wood-frame garage is shown on this lot on the 1926 Sanborn map. The garage is not shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the atlases, it was owned in 1898 by S. Glaser and in 1919 by F. Glaser.

42. The dwelling is a 1 1/2-story brick structure with a stone foundation, 7-course common bond exterior, and a cross gable roof of metal. The front has 3 bays and the side has 2 bays. On the main facade is a central bay porch with a hipped roof of metal and wrought iron posts and railing. The main entrance has a single light glass and wood door with a single light transom set within segmental arch of 2-course header brick. The windows are 1/1 wood sash set within segmental arches of 2-course header brick.

43. This dwelling is part of the development along Fifth Street which began in the early 1800’s when it first became a major east/west thoroughfare in Washington. A 1 1/2-story masonry dwelling with a 1-story wood frame garage is shown on this lot on the 1926 Sanborn map. A different dwelling with two 1-story wood frame outbuildings connected to the garage and 2 separate 1-story wood frame outbuildings is shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. According to the atlas, it was owned in 1919 by E. Glaser. The current owner is Roger Langindorf, who lives on Cedar Street in Washington.
See continuation sheet.

Located in an urban neighborhood. At the rear is a ca. 1920 hipped roof frame garage.

See continuation sheet.

42. The dwelling is a 1 1/2-story brick structure with a stone foundation, 7-course common bond exterior, and a gable roof of asphalt shingles. The front has 5 bays and the side has 3 bays. On the main facade is a central bay porch with a shed roof of asphalt shingles and wrought iron posts and railing. Two main entrances have single light glass and wood doors, eastern with infilled transom. The windows are 6/6, vertical 2/2, and 1/1 wood sash. At the roof line is a corbelled brick cornice with dentils, mimicked with wood on the north facade of the frame additions. There is an interior wall brick chimney on the west and an exterior wall brick chimney on the east. On the west are two wood frame additions. The northern one is 1-story with a flat roof and the southern one is 1-story with a gable roof of standing seam metal.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 1 1/2-story masonry dwelling (704 W. Fifth St.) attached to a 1-story masonry dwelling (706 W. Fifth St.) with 2 connected 1-story wood frame outbuildings is shown on this lot on the 1916 and 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. According to the atlas, it was owned in 1919 by Mrs. K. Hoelscher.

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section indicated in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a 1 1/2-story wood frame gabled ell with a stone foundation, weatherboard exterior, and an intersecting gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. An extended octagonal bay with deck and wrought iron railing above it on the north. On the main facade is a 1/2 porch with a hipped roof of asphalt shingles, turned wood columns, and an open railing of cut-out wood balusters. The main entrance has a single light glass and wood door with a single light transom. The windows are 1/1 wood sash with wood shutters. Alternating wood fish scales are in the gable fields and brackets are at the eaves. On the south is a 1-story wood frame addition with shed roof.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 1 1/2-story wood frame dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1926 Sanborn map. The dwelling minus the extended bay is shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. According to the atlas, it was owned in 1919 by S. Kaune.

42. The dwelling is a 2 1/2-story brick central passage-double pile with a stone foundation, 7-course common bond exterior, and a hipped roof of standing seam metal. The front has 3 bays and the side has 2 bays. On the main facade is a 3/4 porch with a hipped roof of standing seam metal and brick piers. The main entrance has a single light glass and wood door with a multi-light transom set within a segmental arch of 2-course header brick. The windows are 1/1 wood sash set within segmental arches of 2-course header brick. Hipped roof dormers with 1 window and metal siding are on the south and north. There's an interior wall brick chimney on the east.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 2-story masonry dwelling with a 2-story wood frame stable and a 1-story wood frame outbuilding attached to a 1 1/2-story wood frame outbuilding is shown on this lot on the 1926 Sanborn map. A different dwelling with the 1-story outbuilding attached to the stable is shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the atlases, it was owned in 1898 by Mary Sieckendick and in 1919 by E. H. Massmann.

**THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!**

*Please Attach a copy of a topographic map with the site marked on it.*
42. The dwelling is a 1 1/2-story wood frame gable and wing with a stone foundation, weatherboard exterior, and a gable roof of asphalt shingles with wood shingles in the gable fields. The front has 4 bays and the side has 4 bays. On the main facade is an other bay porch with a hipped roof of asphalt shingles, turned wood columns, and an open railing with square wood balusters. The main entrance has a single light glass and wood door with an infilled transom. A secondary entrance off of the porch has similar features. The windows are 1/1 wood sash with shutters. A wall dormer is on the west. There is an interior wall brick chimney on the east. On the north is a 1-story wood frame addition with shed roof and tongue and groove vertical siding.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 1-story wood frame dwelling with a 1-story wood frame outbuilding is shown on this lot (as 811 W. Fifth St.) on the 1926 Sanborn map. Another 1-story wood frame outbuilding is shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the atlases, it was owned in 1898 by Gertrude Gaul and in 1919 by A. Mohrlock.

42. The dwelling is a 2 1/2-story brick structure with a stone foundation, 6-course common bond exterior, and a hipped roof of asphalt shingles. The front has 4 bays and the side has 2 bays. On the main facade is a 3/4 porch with square wood columns with recessed panels, and a solid wood railing. The main entrance has a single light glass and wood door with a single light transom. The windows are 1/1 wood sash set within segmental soldier course arches. A hipped roof dormer with a single window is on the north. At the roof line is a corbelled brick cornice with dentils.

43. This dwelling is part of the development along Fifth Street which began in the early 1800's when it first became a major east/west thoroughfare in Washington. A 2-story masonry dwelling with a 1-story wood frame outbuilding attached to a 1-story masonry garage is shown on this lot on the 1926 Sanborn map. A 2-story wood frame outbuilding and a 1-story wood frame outbuilding are also shown on the 1916 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the atlas, it was owned in 1919 by E. H. Massmann.

Site Number: 842 (continued)

42. The dwelling is a 1 1/2-story brick structure with a stone foundation, 7-course common bond exterior, and a gable roof of standing seam metal with stepped parapets. The front has 3 bays and the side has 2 bays. On the main facade is a full width awning over a newer multi-light glass and metal door and plate glass windows. The opening around the door is infilled with wood siding. The windows in the 1/2-story are newer 1/1 aluminum sash. Some openings on the east are infilled with brick. At the roof line is a corbeled brick cornice with dentils. There is an exterior wall brick chimney on the east. On the south is a 1-story wood frame addition with shed roof, concrete block piers, and ‘hanging’ door with removed stair.

43. This dwelling is part of the development along Fifth Street which began in the early 1800’s when it first became a major east/west thoroughfare in Washington. A 1 1/2-story masonry dwelling is shown on this lot on the 1916 and 1926 Sanborn maps. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1915 Water Works Improvements Map. According to the atlas, it was owned in 1919 by C. J. Mueller.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
This building was built in two stages. The west section is one-story and was built ca. 1850. It is a single pen form with two interior wall brick chimneys and 6/6 sash rectangular windows. The original door opening has been enclosed for a window. This section is two bays wide. The east section is 1 1/2-stories with an exterior brick chimney. The main entrance was altered ca. 1970 with a solid wood door and added wood Chippendale surround. This section was built ca. 1880. Both sections have dentilled brick cornices. Windows are 6/1 rectangular sash in the east section set within single course segmental arches.

This dwelling appears to have been built ca. 1850 and enlarged ca. 1880. The dwelling is shown on the 1915 Waterworks map.

42. Two-story brick American Foursquare dwelling. On the main (S) facade is a one-story partial width shed porch with original milled columns and a railing with square balusters. The main entrance has a single light glass and wood door and a rectangular single light transom. The transom is set within a segmental arch. Windows are 1/1 rectangular wood sash set within two-course segmental arches. The (E) facade has a two-story lateral wing. This wing has a single light glass and wood door. At the roofline is a hipped dormer with paired 1/1 sash windows.

43. This dwelling was built ca. 1905 as the home for the Edward Frick family. He was married to Anne Ziegenmeyer. His son, Malvin Frick later resided in the dwelling and it is now owned by William and Ruth Frick. The house is part of a farm located on the western edge of Washington.

45. Owner, Washington, Missouri Sesquicentennial
House is located just outside city limits on the west side of the city. Adjacent to the house are about 4 ca. 1990 frame outbuildings and a stone barn (site 786).

Site Number: 785 (Continued)

42. Two-story frame I-House built ca. 1870. The house has a stone foundation, gable roof of metal standing seam, and exterior of weatherboard siding. On the main (E) facade is a one-story ca. 1920 single bay porch with square columns. The main entrance has a wood paneled and single light glass and wood door and a three-light rectangular transom. Windows are rectangular two-over-two sash. At the rear is a one-story brick ell. The porch on this facade has chamfered columns and eave brackets. This porch has an exterior wood staircase. The house has two interior wall brick chimneys. To the east of the house is Site Number 786.

43. This dwelling was built ca. 1870 by Adolph Kaiser. Kaiser came to Washington from Germany in 1850. He purchased this farm in 1870 and built the house and adjacent stone barn. He operated a 130 acre farm and was a partner in the milling operation of neighbor Bernhard Cleve. The home is presently vacant.

Section ____________________________  Township ____________________________  Range ____________________________

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
Site Number: 955 (continued)

42. 1 1/2-story Gable Front dwelling with added aluminum siding. On the main (N) facade is a single bay incised porch with a milled column and spindled frieze. The main entrance has an original single light glass and wood door. Over the door is a rectangular single light transom. Windows are original 1/1 rectangular wood sash. At the roofline is an interior brick chimney. On the (W) facade is a gable dormer with paired original 2/2 sash windows.

43. This dwelling was built ca. 1905 - it is shown on the 1908 Sanborn map.

45. 1908 Sanborn map.
Located in a residential neighborhood. At the rear is a ca. 1950 metal garage.

See continuation sheet.

See continuation sheet.

42. 1 1/2-story brick Hall-Parlor plan dwelling. The main entrance has a single light glass and wood door. Over the door is a single light rectangular transom. Over the door is a gable stoop with knee brace brackets added ca. 1930. Windows are rectangular 1/1 wood sash set within single course segmented arches. At the eave are brick dentils. At the roofline is a gable dormer with a 1/1 sash window. Flanking the window are Doric pilasters and in the gable field is a rosette. The main entrance is set within a vestibule. At the rear is a ca. 1950 shed roof frame addition.

43. This dwelling was built in 1895-96, according to the present owners Philip J. and Gladys Engemann. Philip Engemann, a sewing machine dealer, bought the property from August Engemann in 1948. John H. Broecker, a brickmaker and custodian for the public schools, owned the property from 1895-1948. Broecker built the house when he married, and it was part of the Broecker farm. When the Engemann’s moved onto the property in 1948, there was a smoke house, chicken house, grape arbor, picket fence, garden area, and cistern. The property is shown on the 1908 Sanborn map of the city.

42. One-story brick, Single-Pen dwelling built ca. 1880. On the main (N) facade is a ca. 1930 single bay shed porch with square posts and brackets. The main entrance has a ca. 1960 glass and wood door. Windows are original 2/2 rectangular wood sash set within single course segmented arches. At the eaves are brick dentils. On the west facade is an interior wall brick chimney. On the east facade is a ca. 1950 one-story lateral frame wing.

43. This dwelling was built in 1880, according to the present owner, D. Catheran Biermann. This area is not covered on the Sanborn maps. It is shown on the 1915 Waterworks map. The addition (bedrooms) was added by Florence Schulte, one which was bought from his estate, according to Biermann.

44. Owner, 1915 Waterworks map.

42. 1 1/2 story brick veneer Bungalow. The dwelling has an interior brick chimney and stone foundation. On the main (N) facade is a one-story porch with a tapered frame post on a brick pier and a solid brick railing. The main entrance has a multi-light glass and wood door. Windows are 4/1 vertical light sash. Over the door and windows are soldier course lintels. At the roofline is a hipped dormer with three 3/1 sash windows.

43. This dwelling is not shown on the 1915 Waterworks map and appears to have been built ca. 1920.

42. 1 1/2 story brick dwelling. On the main (N) facade is a recessed entrance within a vestibule with a ca. 1990 glass and wood door. Windows are original 2/2 rectangular wood sash set within single course segmental arches. Windows have added shutters. At the eave are brick dentils. At the roofline is a gable dormer with an arched 2/2 sash window. The dormer has raised milled panels. At the rear is a one-story lateral wing. Behind the house is a one-story ca. 1980 frame garage.

43. This dwelling was built ca. 1872 according to the owner. In the early 20th century an orchard was located adjacent to the house. The dwelling is shown on the 1915 Waterworks map.

42. 1 1/2 story frame Bungalow with added aluminum siding. On the main (N) facade is a full width incised porch with tapered frame posts on brick piers and a solid wood railing. The main entrance has a multi-light glass and wood door. Windows are 3/1 vertical light sash. On the (W) facade are two sets of paired stained glass windows. At the roofline is a hipped dormer with three 3/1 sash windows and an interior brick chimney.

43. This frame Bungalow is not shown on the 1915 Waterworks map but appears to have been built soon after.

45. 1915 Waterworks Map.

42. 1 1/2 story Gable Front brick dwelling. The exterior is of five-course common bond brick. On the main (N) facade is a ca. 1930 multi-light glass and wood door. Over the door is a rectangular single-light transom set within a single course segmental arch. Windows on the main facade are 1/1 rectangular wood sash. Windows on the (W) facade are 6/6 rectangular wood sash set within segmental arches. The basement level of the (W) facade has a central entrance with an original two-light glass and wood door. Over the door is a jack arch. At the roofline is a corbelled brick cornice with dentils and four interior wall brick chimneys. Windows on the (E) facade are 6/6 sash set within segmental arches.

43. This brick dwelling is shown on the 1915 Waterworks map and appears to be on the 1869 Bird’s Eye view. The dwelling appears to have been built ca. 1850. At the rear is a brick smokehouse.

42. This building appears to be frame and brick nogging construction. The first floor appears to have been designed in a double pen plan while the second floor consists of two rooms. The dwelling has been altered with the addition of aluminum siding and ca. 1970 doors and windows. On the main facade is a partial width shed porch with milled columns added ca. 1970. The dwelling has two interior wall brick chimneys.

43. This dwelling may date as early as ca. 1850 and appears to be of brick nogging and frame construction. It is shown on the 1908 Sanborn map as a brick building. No other information is known about the building.

45. 1908 Sanborn map.

JEFFERSON CITY, MISSOURI 65102

49. REVISION DATE(S):
Indicates the chief topographical features, such as streams and elevations. Also indicates houses and roads. Indicate the site location by enclosing the site area with dotted lines. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
Site Number: 930 (continued)

42. 1 1/2-story English Cottage with an interior wall brick chimney. The house has added asbestos shingles and permastone siding. The main entrance retains an original arched multi-panel wood door. Adjacent to the door is an arched leaded glass window. Windows are narrow 1/1 rectangular wood sash. On the east facade is a shed dormer with two 1/1 sash windows. At the east facade is also an enclosed porch.

43. This dwelling appears built ca. 1920. This area is not covered on the Sanborn maps and does not appear on the 1915 Waterworks map.

45. 1915 Waterworks map.

42. Two-story brick dwelling with the original section built ca. 1850. This original section is of 6-course common bond construction. The main entrance has a ca. 1950 glass and wood door. Over the door is a rectangular 3-light transom. Windows are ca. 1910 1/1 rectangular wood sash. Over the windows are soldier course lintels and they have wood sills. Stucco has been added to approximately three feet above ground level on the main facade. At the entrance is a ca. 1970 wood awning. The rear two-story brick section appears added ca. 1880 and is of 5-course common bond construction. Windows are rectangular ca. 1950, 2/2 horizontal sash. The windows are set within single course segmental arches. The rear entrance has an original 4-panel door. The gable ends of the original section have stepped parapets with 4-light casement attic windows. At the roofline of the main facade is a gable dormer. Below the eave is a corbelled brick cornice.

43. This dwelling appears to have been built ca. 1850. It is shown on the 1915 Waterworks map.

42. The dwelling is a 1 1/2-story wood frame bungalow with a concrete foundation, vinyl siding, and a gable roof of standing seam metal. The front has 3 bays and the side has 2 bays. On the main facade is a 3/4 porch with a shed roof of standing seam metal, turned wood columns, and an open railing with square wood balusters. The main entrance has a single light glass and wood door with a single light transom. The windows are 1/1 wood sash. A gable roof dormer with 2 windows is on the south. There is a central interior wall brick chimney. On the north is a 1-story screened porch.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800's when the street was the western edge of Washington. A 1 1/2-story wood frame dwelling is shown on this lot on the 1916 and 1926 Sanborn maps. The whole lot is not shown on these maps. This lot is not shown on the earlier Sanborn maps. According to the 1919 atlas, it is Lot 6, Block 10 of William Stumpe's Addition.

42. The dwelling is a 2-story wood frame 1-house with a stone foundation, asbestos shingles exterior, and a gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. On the main facade is a central bay porch with a gable roof of asphalt shingles, round metal posts, and an open railing with round metal balusters. The main entrance has a single light glass and wood door. The windows are 1/1 wood sash. On the north is a 1-story wood frame addition with a gable roof.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800's when the street was the western edge of Washington. A 2-story wood frame dwelling is shown on this lot on the 1916 and 1926 Sanborn maps. The whole lot is not shown on these maps. This lot is not shown on the earlier Sanborn maps. According to the 1919 atlas, it is Lots 1 and 2, Block 10 of William Stumpe's Addition.

42. The dwelling is a 2 1/2-story brick structure with a stone foundation, 7-course common bond exterior, and a hipped roof of asphalt shingles. The front has 4 bays and the side has 2 bays. On the main facade is a 1/2 porch with a hipped roof of asphalt shingles, turned wood columns, and an open railing with square wood balusters. The main entrance has a single light glass and wood door with a single light transom set within a segmental arch of 2-course header brick. The windows are 1/1 wood sash with wood shutters and are set within segmental arches of 2-course header brick. Hipped roof dormers with 1 window are on the south and north. There is an interior wall brick chimney on the west. On the north is a 1-story wood frame addition with a deck above with wood stair and landing.

43. This dwelling is part of the residential development along Eighth Street which began in the mid-1800's when the street was the southern edge of Washington. This lot is not shown on the 1893/1898/1908/1916/1926 Sanborn maps. According to the 1919 atlas, it is Lots 9 and 10, Block 2 of William Stumpe's Addition.

P.O. Box 176

Jefferson City, Missouri 65102

Ph. 314-751-5365

If additional space is needed, attach separate sheet(s) to this form.
Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a 1 1/2-story wood frame gabled ell with a stone foundation, weatherboard exterior, and an intersecting gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. On the main facade is an other bay porch with a hipped roof of asphalt shingles, turned wood columns, and an open railing with square wood balusters. The main entrances have single light glass and wood doors. The windows are 1/1 wood sash. There is a central interior wall brick chimney. On the north is a 1-story porch with shed roof and wood railing.

43. This dwelling is part of the residential development along Eighth Street which began in the mid-1800's when the street was the southern edge of Washington. An earlier dwelling (or this one before many alterations) is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1869 Bird's Eye View and on the 1915 Water Works Improvements Map. According to the 1919 atlas, it is Lot 10, Block 9 of William Stumpe's Addition.

Site Number: 899 (continued)

42. The dwelling is a 1 1/2-story wood frame bungalow with a concrete foundation, weatherboard exterior, and a gable roof of standing seam metal. The front has 3 bays and the side has 2 bays. On the main facade is a 3/4 porch with a hipped roof of standing seam metal, turned wood columns, and an open railing with square wood balusters. The main entrance has a single light glass and wood door with a multi-light transom. The windows are 1/1 wood sash. Two hipped roof dormers with 2 windows are on the north. There are interior wall brick chimneys on the east and west.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800's when the street was the western edge of Washington. This lot is not shown on the 1893/1898/1908/1916/1926 Sanborn maps. According to the 1919 atlas, it is Lot 4 of J. F. Dierking's Estate.

Section ____________________________ Township ____________________________ Range ____________________________

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc., on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a 1 1/2-story wood frame bungalow with a concrete foundation, weatherboard exterior, and a gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. On the main facade is a full porch with a shed roof of asphalt shingles and tapered wood columns on brick piers. The main entrance has a multi-light glass and wood door. The windows are vertical 5/1 and 4/1 wood sash. There is a central interior wall brick chimney.

43. This dwelling is part of the residential development along Eighth Street which began in the mid-1800’s when the street was the southern edge of Washington. This lot is not shown on the 1893/1898/1908/1916/1926 Sanborn maps. According to the 1919 atlas, it is Lot 3, Block 8 of William Stumpe’s Addition.

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

**THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!**

*Please Attach a copy of a topographic map with the site marked on it.*
42. The dwelling is a 1 1/2-story wood frame cottage with a concrete foundation, aluminum siding, and a gable roof of asphalt shingles. The front has 3 bays and the side has 3 bays. On the main facade is an asymmetrical extended entry bay with a steeply pitched gable roof of asphalt shingles. The main entrance has a multi-light glass and wood door. On the west is a secondary entrance with a multi-light glass and wood door and an eyebrow stoop. The windows are vertical 3/1 wood sash. There is a central interior wall brick chimney.

43. This dwelling is part of the residential development along Eighth Street which began in the mid-1800’s when the street was the southern edge of Washington. This lot is not shown on the 1893/1898/1908/1916/1926 Sanborn maps. According to the 1919 atlas, it is Lot 8, Block 6 of William Stumpe’s Addition.

42. One-and-one-half story brick dwelling built ca. 1913. The house has a stone foundation and pyramidal roof of asphalt shingles. On the main facade is a one-story partial width porch with square Doric motif wood columns on stone piers. The main entrance has an original paneled wood door set within a segmental arched opening. Windows are original 1/1 rectangular wood sash set within segmental arches. At the roofline is a hipped dormer with aluminum siding and an added single light window.

43. This dwelling was built ca. 1913 according to the present owner, Dan Manhart. The dwelling is not shown on any of the city maps.

42. Two-story frame Foursquare plan residence built ca. 1905. The house has a concrete foundation, hipped roof of metal standing seam, and exterior of aluminum siding. On the main (S) facade is a partial width one-story porch with square columns. This porch and the main entrance door were added in 1957 by the present owners. Windows are original 1/1 rectangular wood sash. This house originally was oriented towards the east with a walkway leading to Jefferson Street. In the 1950s this orientation was changed with the entrance and porch added to the south facade. On the east facade is a hipped dormer at the roofline.

43. This dwelling was built ca. 1905 for the Frank Jasper family. Frank Jasper (1862-1928) operated a dairy farm on the south side of Washington for many years. The house originally faced Jefferson Street but was remodeled in the 1950s.

42. One-story frame Saddlebag plan log dwelling built ca. 1860 with a central brick chimney. The house has a stone foundation, gable roof of metal standing seam, and exterior of weatherboard siding. On the main facade is a one-story full width porch with chamfered columns. Two primary entrances are on the main facade - one has a two light and two panel door while the other is a three panel, one light door. Windows are original 2/2 rectangular sash. At the rear is a ca. 1950 shed frame addition.

43. This log dwelling was built in a Saddlebag plan ca. 1860 by the Kleinheider family. This family was known in the 19th century for their building and carpentry skill. This log dwelling is shown on the 1878 map as owned by M.K. and on the 1878 map as the 8 acre farm of C. Kleinheider. In the early 20th century it was remodeled and owned by the Kriete family.

42. Two-story brick I-House with a stone foundation and gable roof of asphalt shingles. The rear building was used as a smokehouse - tenant house and the main dwelling was built ca. 1870. The rear building is one-story and has a gable roof of metal standing seam. This two-bay building has wood paneled doors, two interior wall brick chimneys, and a stone foundation. The main dwelling has a one-story, single bay porch with chamfered columns. The main entrance has a three panel and single light glass and wood door and four-light transom. Windows are ca. 1980 6/6 sash windows set within segmental arched openings. The house has two interior wall brick chimneys. At the roofline is a corbelled brick cornice. At the rear is a two-story shed brick addition added ca. 1900. Adjacent to the house is a ca. 1920 gambrel roof barn and several other outbuildings from the early 20th century.

43. This farmstead and dwelling was built by Frederick August Brehe who were born in Germany and emigrated to America. He or his son, Fred Henry Brehe, built the main dwelling ca. 1870. His son was George H. Brehe who resided at the house and operated the farm. It continues to be owned by the Brehe family.

Section ___________________________  Township ___________________________  Range ___________________________

Indicate part of section included in sketch map.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. Two-story frame I-House built ca. 1880. The house has a stone and brick foundation, gable roof of metal standing seam, and exterior of weatherboard siding. On the main facade is a single bay, one-story entry porch with chamfered columns, eave brackets, and scalloped valence. The main entrance has an original four panel door and four-light transom. Windows are 2/2 rectangular wood sash. At the rear is a shed roof porch added ca. 1920. Chimneys on the house have been removed. The west two bays of the dwelling may possibly be log or were built at an earlier date. Adjacent to the house are four ca. 1920-40 outbuildings.

43. This dwelling was built ca. 1880 or possibly earlier. The house is part of a farmstead located on the western edge of Washington. Known as the Brinker Farms it was owned by Alfred Brinker during much of the early 20th century.

42. 1 1/2 story brick dwelling. The house has an exterior of five-course common bond brick. The main entrance has a recessed single-light glass and wood door. Over the door is a two-light arched transom. The door is set within an arched opening. The windows are 2/2 rectangular wood sash set within single-course segmental aches. At the roofline is a corbelled brick cornice with dentils. On the (N) facade is an added brick flue. Windows have added metal awnings. At the rear is a one-story frame addition built ca. 1960.

43. Constructed ca. 1890, this brick dwelling is shown on the 1915 Waterworks map.

42. 1 1/2 story brick dwelling. On the main (E) facade is a partial width shed porch with original milled columns and a railing with square balusters. The main entrance has an original single-light glass and wood door set within a two-course segmental arch. Windows are 2/2 rectangular wood sash set within two-course segmental arches. At the roofline is a corbelled brick cornice. The roof has an interior wall brick chimney and an original surface of metal standing seam. At the rear is a two-story frame addition with aluminum siding. The basement has a two-light window set within a segmental arch. The exterior wall has star anchors for tie rods.

43. This brick dwelling appears to have been built ca. 1890 but is not shown on the 1915 Waterworks Map.

42. The Busch brewery is composed of three brick bldgs, built ca. 1888-1915.

Building # 1 is a ca. 1888 one-story gable front rectangular plan brick building with segmentally arched openings. Doors and windows are not original. At the roofline is a cupola with a pyramidal roof and vents. The roof is standing seam metal. No fenestration on side facades.

Building # 2 is a two-story brick building constructed ca. 1888. The building has a stone foundation and exterior of five-course common bond construction. At the roofline is corbelled brick. The building has a flat roof of asphalt material. Windows are 6/6 rectangular wood sash set in segmentally arched openings. Entrances have double doors with wood panels. One entrance on the first floor has double doors of glass and wood panel design with a rectangular transom. The three-story section was added ca. 1915 and has original 9/9 and 12/12 sash windows. Windows have concrete sills. Doors are nine-light and single panel glass and wood design. Other doors are paired multi-light glass and wood design. At the roofline is a stepped parapet wall.

Building # 3 is a one-story brick, 4 bay, rectangular plan building with a stone foundation built ca. 1888. The building has a gable roof of asphalt shingles and exterior of five-course common bond brick. Windows are paired three light casement design set within segmental arches. Doors are four light and single panel glass and wood design with rectangular two-light transoms. At the roofline is a corbelled brick cornice. The west bay has a projecting gable roof. At the rear is a ca. 1915 one-story brick addition.
43. This complex of buildings was known as both the Washington Brewery and the Busch Brewery. It was begun in 1855 by John B. Busch, Fred Gersie, and Henry Busch. The brewery was built next to a spring and Dubois Creek. In 1888, a large part of the brewery was destroyed by fire and had to be rebuilt. Brewing began again in December of 1888. Following prohibition, the brewery produced soft drinks and near beer.

42. The dwelling/duplex is a ca. 1930, 1 1/2-story wood frame Bungalow with a concrete foundation, asbestos shingles siding, and a gable roof with exposed rafter ends and asphalt shingles. The front has 3 bays and the side has 5 bays. Two extended bays are on the main facade. The gable end western bay has a porch with a hipped roof of asphalt shingles and tapered square wood columns. The main entrance is a multi-light glass and wood tongue-and-groove door. The eastern bay is an enclosed garage with 1/1 window. The other windows are 1/1 wood sash. Several windows have been filled in on the east and west facades. A shed roof dormer with 2 windows is on the north facade. There is a central interior wall brick chimney.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This lot is not shown on the 1893/1908/1916/1926 Sanborn maps.

42. Two-story central passage plan and Italianate dwelling with a rear one-story ell built ca. 1850/1881. The house has an exterior of 5-course common bond and two interior wall brick chimneys. On the main (N) facade is a two-story porch of hoop and dart cast iron design added ca. 1960. The main entrance has an original 4-panel door. The door has a 3-light transom, corner lights and 3-light sidelights. The entrance windows are original 4/4 rectangular wood sash set within single course segmented arches. Windows have wood shutters. In the central second story bay is a two light glass and wood door and two light transom. At the roofline is a gable wall dormer with an elliptical attic window in the gable field. At the eaves are brackets. At the rear is a ca. 1960 one-story addition in the ell.

43. The original section of this house is believed to have been built ca. 1850 and is located in the original town plan of Nierstein. The house was enlarged into its present form in 1881 as the residence of Captain Arch S. Bryan who commanded a fleet of Missouri River packets between St. Louis and Fort Benton.

45. John Politte, owner.

42. 1 1/2-story frame Bungalow. On the main (E) facade is a partial width one-story porch with tapered frame columns on brick piers. The railing has square balusters. The main entrance has a ca. 1970 paneled wood door. Windows are 1/1 rectangular wood sash. At the (E) and (W) facades are hipped dormers with three 1/1 sash windows.

43. This dwelling was built late 1929, according to the present owners Mr. and Mrs. Benjamin Filla. It is not shown on the 1915 Waterworks map of the city. Original owners were Eli and Ada Reiske. The builder was Geisike Bros. Lumber Company. The Reiske’s lived the remainder of their lives in the house. Eli Reiske worked at the old International Shoe Company. Before the house was built, the land was a park and had a gazebo where the back yard is now, according to the Filla’s.

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
The dwelling is a ca. 1915, 1 1/2-story wood frame Pyramid Square plan with a stone foundation, asbestos shingles, and a hipped roof of standing seam metal. The front has 3 bays and the side has 2 bays. On the main facade is a 3/4 porch with a shed roof of standing seam metal, wood Tuscan pilasters, and wrought iron posts and railing. The main entrance is a single light glass and wood door with a single light transom. The windows are 1/1 wood sash. Hipped roof dormers are on the south and north facades. There is an interior wall brick chimney on the west facade. On the north facade is a 1-story addition with a shed roof porch with wood columns and square wood balustrade.

This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1-story wood frame dwelling is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate. A building is shown at this location on the 1915 Water Works Improvements Map.

Indicate part of section included in sketch map.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1930, 1 1/2-story wood frame English Cottage with a concrete foundation, brick veneer and vinyl siding, and a gable roof of asphalt shingles. The front has 3 bays and the side has 3 bays. On the main facade is an extended entry bay with steeply pitched roof and brick veneer and a concrete landing with wrought iron railing. The main entrance is a single light glass and wood elliptical door set within a segmental Tudor arch of header course brick. Adjacent to the door is a small multi-light stained glass window. The windows are newer 1/1 aluminum sash. There is an interior wall brick chimney on the north facade. On the east facade is a shed roof porch with wrought iron posts and railing. A 1-story wood frame gable roof garage addition is on the south facade.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. Nothing is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate.

Notes:

*THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM*

*Please Attach a copy of a topographic map with the site marked on it.*
42. The dwelling is a ca. 1915, 1 1/2-story wood frame Open Gable plan with a stone foundation, asbestos shingles, and a gable roof of asphalt shingles. The front has 3 bays and the side has 2 bays. On the main facade is a one-story entry porch with a hipped roof of asphalt shingles and turned wood columns. The main entrance is a wood door with a single light transom. The windows are 1/1 wood sash with ornamental shutters on the south facade. There is an interior wall brick chimney.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling with a 1-story wood frame garage is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate. This building (or site 578) may be shown on the 1915 Water Works Improvements Map.

Sketch map of location

Section ___________________________ Township ___________________________ Range ___________________________

Indicates the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1915, 1 1/2-story wood frame Open Gable plan with a stone foundation, vinyl siding, and a cross gable roof of asphalt shingles. The front has 4 bays and the side has 2 bays. An extended bay is on the west facade. On the main facade is a one-story entry porch with a hipped roof of asphalt shingles, turned wood columns, and an open railing with square wood balusters. The main entrance is a single light glass and wood door with a single light transom. The windows are 1/1 wood sash. There is a newer exterior wall concrete block chimney on the east facade.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. A 1 1/2-story wood frame dwelling with a 1-story wood frame garage is shown on this lot on the 1926 Sanborn map. This lot is not shown on the earlier Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate. A building is shown at this location on the 1915 Water Works Improvements Map.
House is located in an urban neighborhood. At the rear is a wood frame, shed roof, two bay garage with wood siding.

See continuation sheet.

42. The dwelling is a 1 1/2-story wood frame Bungalow built in 1937 with a concrete foundation, weatherboard siding, and a gable roof of asphalt shingles. The front has 3 bays and the side has 3 bays. On the main facade is a 3/4 porch with a shed roof of asphalt shingles, tapered wood columns on brick piers, and an open railing with square wood balustrade. The main entrance is a multi-light glass and wood door. The windows are vertical 3/1 wood sash. A gable roof dormer with 3 windows is on the north facade. There is a central interior wall brick chimney.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. Nothing is shown on this lot on the 1926 Sanborn map. It was built by Fred Leuker in 1937. The current owner and occupant is Helen Bohle.

42. The dwelling is a 1 1/2-story Open Gable plan built in 1914 with a stone foundation, brick veneer, and a cross gable roof of standing seam metal. The front has 4 bays and the side has 2 bays. An extended bay is on the east facade. On the main facade is a one-story entry porch with a hipped roof of standing seam metal, turned wood columns, and an open railing with square wood balustrade. The main entrance is a single light glass and wood door with a single light transom set within a segmental arch of two courses of header brick. The windows are 1/1 wood sash set within segmental arches of two courses of header brick. There are an interior wall brick chimneys on the east and west facades.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This house was built in 1914 for Henry J. Hoelscher. The contractor for the house was a builder named Rauch. The house is presently owned by Lawrence and Bonnie Lou Aholt.

42. The dwelling is a 1931, 1-story wood frame Bungalow with a concrete foundation, weatherboard siding, and a gable roof of asphalt shingles. The front has 3 bays and the side has 4 bays. An extended bay is on the west facade. On the main facade is a 3/4 porch with a gable roof of asphalt shingles, tapered wood columns on brick piers, and a solid wood railing. The main entrance is a multi-light glass and wood door. The windows are 6/1 wood sash. There is a central interior wall brick chimney and an exterior wall brick chimney on the west facade. On the east facade is an awning over an entry with concrete landing and square wood balustrade.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This house was built in 1931 for the Emil F. Schmidt family. The builder was Walter Meyer. The present owner is Vernon and Evelyn Schmidt.

42. The dwelling is a ca. 1905, 1 1/2-story brick Gabled Ell plan with a stone foundation and a hipped roof of asphalt shingles. The front has 2 bays and the side has 3 bays. A 1-story extended bay is on the west facade. On the main facade is a one-story porch with a hipped roof of asphalt shingles and wrought iron posts and railing. The main entrance is a single light glass and wood door with a single light transom set within a segmental arch of two course header brick. The windows are 1/1 wood sash set within segmental arches of two course header brick. Some glass has been removed from windows on the north. On the east facade is a window with glass block infill. Awnings are on the south and west facades. Hipped roof dormers with single light windows are on the south and east facades. There are 2 interior wall brick chimneys on the west and north facades. On the north facade is a 1-story enclosed wood frame porch.

43. This dwelling is part of the residential development surrounding the Roberts, Johnson and Rand Shoe Factory, established 1907. This lot is not shown on the 1893/1908/1916/1926 Sanborn maps. This lot was probably part of the land bought and sold between November 1906 and March 1907 to raise the $35,000 incentive for the shoe factory development. It had previously been part of the Elijah McLean estate. A building is shown at this location on the 1915 Water Works Improvements Map.

42. 1 1/2 story brick dwelling with a rear lateral wing. On the main (W) facade is a one-story single bay entry porch rebuilt ca. 1960 with square columns and a wrought iron railing. The main entrance has a ca. 1960 glass and wood door. The transom over the door has been enclosed with frame panels. Windows are 1/1 rectangular wood sash set within single course segmental arches. The house has interior wall brick chimneys.

43. This dwelling was built ca. 1918 by Christopher Schmidt. Schmidt was one of Washington’s most active builders and masons at the turn of the century and he built this house as his residence ca. 1918. The house is not shown on the 1916 Sanborn map but appears on the 1919 atlas as "C. Schmidt". The house was later occupied by his son, Emil Schmidt, and the house was purchased by the present owner in 1950.

42. Two-story brick veneer American Foursquare. On the main (E) facade is a one-story shed roof partial width porch. The porch has original Tuscan columns and a railing with square balusters. At the roof of the porch is a balcony with square balusters and frame piers with ball caps. Both stories of the main facade have entrances with single light glass and wood doors. Over the doors are single light rectangular transoms. The second story transom has been enclosed with frame panels. Windows are 1/1 rectangular sash set within two-course header segmental arches. At the roofline is a hipped dormer with paired 1/1 sash windows. The house has an interior wall brick chimney.

43. This brick Foursquare dwelling was built ca. 1910. It is not shown on the 1908 Sanborn map but appears on the 1915 Waterworks map and 1916 Sanborn map.

45. 1908 and 1916 Sanborn maps and 1915 Waterworks map.

Sketch map of location

Indicate the chief topographical features, such as streams and elevations. Also indicate houses and roads. Indicate the site location by enclosing the site area with dotted line. Note scale of map and portion of section included in sketch map. Include drawings, photographs, etc. on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. The dwelling is a ca. 1897 1 1/2-story brick hall and parlor with a stone foundation, 7-course common bond exterior, and a gable roof of asphalt shingles. The front has 4 bays and the side has 2 bays. On the main facade is an enclosed wood frame stoop with multi-light transom, multi-light sidelights, and an aluminum screen door. The main entrance has a multi-light glass and wood door with a single light transom. The windows are vertical 2/2 and 1/1 wood sash set within segmental soldier course arches. Two gable roof dormers with decorative wood shutters are on the south. There are interior and exterior wall brick chimneys on the east and west. Also on the east is a newer interior wall brick chimney. On the north is a concrete patio.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800’s when the street was the western edge of Washington. A 1 1/2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1926 Sanborn map. There is also a 1-story masonry outbuilding on the 1916 Sanborn map. Another 1-story wood frame outbuilding is on the 1908 Sanborn map. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1869 Bird’s Eye View and on the 1915 Water Works Improvements Map. According to the atlases, it is part of the Stephenson’s addition.

This dwelling was built ca. 1897 on the Christopher Schmidt estate.

42. The dwelling is a ca. 1900 1 1/2-story brick side hall plan with a stone foundation, 5-course common bond exterior, and a gable roof of asphalt shingles. The front has 4 bays and the side has 2 bays. The main entrance is in a recessed vestibule and has a wood door with a single light transom. The windows are 1/1 wood sash set within segmental soldier course arches. A wall dormer is on the west. There is an interior wall brick chimney on the west. On the north is a wood deck connected to a 1-story shed roof porch with square wood columns and balusters.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800’s when the street was the western edge of Washington. A 1 1/2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1908, 1916, and 1926 Sanborn maps. This lot is not shown on the earlier Sanborn maps. A building is shown at this location on the 1869 Bird’s Eye View and on the 1915 Water Works Improvements Map. According to the atlases, it is part of the Stephenson’s addition.

The house was built ca. 1900 by local mason Christopher Schmidt as his residence.

42. The dwelling is a ca. 1915, 2 1/2-story brick structure with a stone foundation and a hipped and gable roof of standing seam metal. Finials are at the roof peak and gable ends. The front has 2 bays and the side has 4 bays. On the main facade is an other bay porch with a hipped roof of standing seam metal, wood Tuscan columns on brick piers, and a wrought iron railing. The main entrance has a louvered wood door with a single light transom. The windows are 1/1 wood sash with ornamental wood shutters and are set within segmental soldier course arches. A stained and leaded glass window is on the east. In the gable field is metal siding. Hipped roof dormers with 1 window and metal siding are on the south, north, and east. There are interior wall brick chimneys on the north and east.

43. This dwelling is part of the residential development around Stafford Street which began in the early 1800’s when the street was the western edge of Washington. A 2-story masonry dwelling with a 1-story wood frame outbuilding is shown on this lot on the 1916 Sanborn map. This lot is not shown on the 1893, 1908, or 1926 Sanborn maps. Fremont Street is not shown continuing west of Stafford Street on the 1915 Water Works Improvements Map. According to the atlases, it was owned in 1919 by H. H.

42. One-story frame dwelling. The main north facade has a raised stone basement with an added concrete surface. This facade has two entrances in the basement level. The east entrance has a ca. 1920 multi-light glass and wood door. The west entrance has a four-panel door. Windows in the basement and first floor level are original 6/6 rectangular wood sash. The dwelling has two interior wall brick chimneys. The west facade has an original four-panel door. In the gable field are two two-light casement windows. The south facade has two entrances with ca. 1900 two-light glass and wood doors.

43. This dwelling is believed to have been built ca. 1880 as part of a pottery factory. The property is shown as being owned by "Bryan" in 1878. The factory eventually closed and in 1919 the property was owned by A. Stumpe. In 1926 the property was listed as a negro tenement. The dwelling warrants further research to ascertain its National Register eligibility.

45. Interview with Ralph Gregory, 1919 atlas, 1926 Sanborn map.

42. Two-story frame dwelling covered with aluminum siding. The main facade has three bays. Windows are ca. 1970 metal and glass design. The main entrance has been enclosed with a 1 story vestibule but displays a ca. 1920 multi-light glass and wood door. On the main facade is a shed porch supported by four square wood columns. The foundation is brick and stucco. The gable roof is of corrugated metal. At the rear is a one-story shed roof addition.

43. Built ca. 1900, this frame dwelling has been covered with aluminum siding and altered in recent years. This area is not shown on any of the Sanborn maps.

45. 1916, 1926 Sanborn maps.

Sketch map of location

Section ____________________ Township ____________________ Range ____________

Indicate the chief topographical features, such as streams and elevations. Also indicate
houses and roads. Indicate the site location by enclosing the site area with dotted line.
Note scale of map and portion of section included in sketch map. Include drawings, photograhpics,
etc., on additional pages.

Notes:

THIS IS PROBABLY THE ONE MOST IMPORTANT PART OF THIS DATA FORM!

Please Attach a copy of a topographic map with the site marked on it.
42. One- and one-half story brick dwelling with a gable roof of standing seam metal. A one-story gable roof frame addition is slightly recessed from the main body of the building. The main facade faces east and has three bays. The main entrance has a door of wood and glass with a rectangular single light transom in a segmental arched opening. Windows are not visible - covered with louvered wood shutters but have segmental arched openings. Brick corbelling at roofline with brick modillion blocks. The house has two interior wall brick chimneys. At the roofline is a gabled dormer with milled brackets and pilasters with a sunburst design in the gable field. Frame addition was added ca. 1900 and has a shed porch supported by eight square wood posts. This addition has a six-panel door and six-over-six sash windows.

43. This brick dwelling was built ca. 1880 in the original town of Bassora. This area is now part of Washington. The dwelling is shown on the 1915 Waterworks map.

Notes:

This is probably the one most important part of this data form!

Please attach a copy of a topographic map with the site marked on it.
Site Number: 788 (Continued)

42. One-story brick dwelling built ca. 1850. The house has a stone foundation, gable roof of metal standing seam, and has three flues. The main entrance has been covered with wood panels and windows have also been boarded up. Windows have segmental arched openings. At the rear of the dwelling is a ca. 1850 smokehouse which has been joined to the main dwelling by a ca. 1940 frame addition.

43. This vacant farmstead appears to have been built ca. 1850 and retains its original smokehouse. The original plan of the dwelling is unusual with no doors on the main facade. It was built ca. 1850 by Fred Kohlmueller who operated an 80 acre farm and sold clay to the H.M. Thompson Potteries of St. Louis. The farm was later owned and operated by son Louis Kohlmueller who also worked at the International Shoe Company in the early 20th century. The house is presently under renovation by the local historical society. It is located near the present city park.

45. 1878 and 1898 Atlas', and Washington, Missouri Sesquicentennial.
