DESCRIPTION OF ENVIRONMENT AND OUTBUILDING
A parking lot and playground are located north of the school building.

ADDENTIAL PHYSICAL DESCRIPTION:
Facing south on East 45th Street and measuring approximately 104’ x 120’.
The building displays classical elements including broken pediments over
the third level windows and pedimented gables over the two front entrances.
An unadorned entablature with four pendants extends along the roof line
between the broken pediments. Classical elements exhibited on the building
include brick quoins, a cornice with dentils, and decorative swags beneath a
pair of third level windows and above the entranceways. A stone beltcourse
wraps around. A 47’ x 110’ western addition was built in 1935. A 44’ x 121’
addition was built in 1955.

HISTORY AND SIGNIFICANCE:

| Architect/Engineer/Designer: | Charles A. Smith |
| Contractor/Builder/Craftsman: | Lishear Construction Company |
| Developer: | |

In 1923, a four room frame school was constructed at this site in honor of Edwin Merservey, a president of the
Board of Education. In 1927, a new building was erected with over 20 rooms, including 7 classrooms, domestic
science and manual training rooms, a gymnasium, an auditorium, and offices. The 1935 wing provided additional
classrooms and another addition occurred in 1955. The architects for the 1955 addition were Shaughnessy,
Bower & Grimaldi

| Kansas City Register: | Date: |
| National Register: | Date: |
| Register Status or Eligibility: | Individually eligible |
| Eligibility Comments: | This is a good example of the work of Charles Smith and the Classical Revival Style. It is eligible under Criterion C for Architecture and Criterion A for Education. |
