Sanborn maps show this house is frame although its form is more typical of a brick house. Siding has altered the original openings which consist of two windows on each level - the door is located on the north side. An 1885 permit for the addition of a story to a frame dwelling may apply to this house.

Siding has altered the original openings - the door was probably centered on the facade originally but is now located in a small addition on the rear. The owner received a permit for alterations and an addition in 1905.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick building originally had a store at the first floor level, with a second floor apartment. It has a flat roof with terra cotta coping and a brick corbelled cornice, although part of the cornice is missing. Are three window openings at the second floor, although one has been filled in with brick. Part of the iron storefront is still in tact, although the window openings have been filled in with siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Daily record 3/21/1893. Both the permit and daily record do not give an address, but the description matches this building.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one non-contributing frame garage with a gable roof.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with terra cotta coping, and a brick corbelled cornice. It has a hipped roof porch with wooden supports, which shelters the front door on the right side of the front facade. To the left of the porch is a single one-over-one window with a stone sill and brick segmental arched lintel.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # D-6837

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one contributing garage with a shed roof, constructed of one brick wall and three walls of vertical wood siding.

This non-contributing one-story ranch house has a low-pitched side-gabled roof. The exterior is covered with a variegated brick veneer. The front door is located slightly to the left of the center of the facade, and is approached by a small concrete porch with iron railings. To the left of the front door is a double one-over-one window. To the right of the front door are two separate one-over-one windows. All windows have brick sills and non-functioning shutters.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story flat has a hipped roof that crosses a front facing gable. This creates an L shaped plan, with a hipped roof porch at the corner of the L, where the front entrance is located. This porch has square brick posts and columns, although it looks to have been enclosed at a later date. Above the porch is a single window with a stone sill. The gable-end bay facing the street has a cornice with wooden brackets, and a grouping of triple windows at each floor, each group sharing a stone sill.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick apartment building has a flat roof with a Craftsman-style mansard of terra cotta tiles, with a central pediment and wooden brackets. The front facade is symmetrical with a large brick porch with square posts and supports. At the first floor there are four doors on this porch, all appear original. The second floor of the porch is a slightly recessed balcony with two doors that access it. Flanking this large porch on either side are triple six-over-one windows with wooden mullions and a continuous stone sill. All windows appear to be original.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # B-1924. Daily record 8/25/1922.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

Other:
21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a shaped-parapet with white glazed terra cotta coping. The wooden cornice is above a white glazed brick dentil motif. The original front porch is intact. It features a front facing gable roof with extended rafters, supported by white glazed brick columns with Corinthian capitals. The front entrance has been altered and filled in with siding. The front facade has two single one-over-one windows, with a continuous sill, which divides the front facade into two sections with contrasting bricks. The basement windows on the front facade have been filled in.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-1232. Daily Record 2/20/1912.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a flat roof with a side stepped parapet with terra cotta coping. The front facade has corner square pinnacles with what appears to be galvanized caps. There is also a galvanized cornice. The two front entrance doors each have transoms and are located on the left side of the front facade. To the right is a large square window with stone sill. On the second floor are three single windows, each with stone sills. All windows have non-functioning shutters. The entire building is constructed with an unusual brick bond, with frequent headers that create a variegated pattern.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No building permit could be found. A street numbering certificate is dated 5/1/1913 by owner Gustav Mayer, although it seems that certificate is for 207-09 Bowen, and this building appears to be a bit older.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is a contributing garage built in 1947. It is mostly frame, although the east wall is brick. It has a gable roof and holds two cars.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick four family flat has a flat roof with a shaped parapet with a center pediment. The parapet has capping that appears to be galvanized iron. The symmetrical front facade has a central entrance bay, with two recessed entryways. Flanking the entrance bay on each side are large square one-over-one windows with stone sills. Identical windows are directly above at the second floor. The second floor center bay has two single one-over-one window with stone sills. The entire building is constructed with an unusual brick bond, with frequent headers that create a variegated pattern.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-6838. Daily record 5/2/1913.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This brick church has a front facing gable roof with a brick parapet wall with square corners. The front facade is symmetrical, and has a central tower that is two stories tall. The tower has a low-pitched hipped roof with a cornice with brackets. Located within the tower is the front entrance which is set beneath a round arch. Flanking the tower on each side are tall round arch windows. The sides of the church have four of these windows, each with stone sills.

This one-story brick house has a flat roof with a shaped parapet with terra cotta coping. The parapet includes square corners and a central pediment that is stepped and has a decorative "X" in white glazed brick. There is also a cornice with dentils, which appears to be galvanized metal. The front facade is symmetrical with a central brick porch with square brick supports. This shelters a front door with transom. Flanking either side of the porch are large square windows, with stone sills and brick segmental arched lintels.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # B-752. Daily record 6/16/1922. 1938 alterations to brick dwelling ($175) by owner W. Bauer.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with a shaped parapet with terra cotta coping. The parapet includes square corners and a central pediment that is stepped and has a decorative "V" in white glazed brick. There is also a cornice with dentils, which appears to be galvanized metal. The front facade is symmetrical with a central replacement porch with a concrete foundation and wrought iron supports. Flanking either side of the porch are large square windows, with stone sills and brick segmental arched lintels. The windows are replacements, and are eight-over-eight.

Additional Information:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick bungalow has a front facing gable with vertical half-timbering at the pediment. The front facade is symmetrical, with a central brick front porch with a gable roof, half-timbering, and square brick supports. Flanking the porch on either side are single three-over-three windows that are original to the house. They have simple brick sills.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # D-4672. Daily record 3/30/1926.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

Alterations to this house appear to be historic. The second story has an addition on its south side that is supported on wood posts. The main entrance is on the side. Lower story facade windows have keystones. All facade windows have metal awnings. A large brick garage with a shaped parapet is located on the north side of the property.

This commercial building has been well maintained - its storefront is almost perfectly intact. Cast iron supports on the first story have a tin cornice across the top. The three second story windows are segmental arched. The base of the main cornice is tin with a swag design. Tin also decorates the parapet which has a center gable peak and finials.

The cornice is corbelled brick. The second story has two broad segmental arch window bays with three windows. Decorative wood fills the gaps between the window and the arch. A band of molded brick extends across the base of each window. The lower story has been remodeled - brick and new windows fill the original display windows but the cast iron pilasters are still visible. This building shares an asphalt shingle awning with 6901-03 next door.

The corner building has a corbelled brick cornice on both street facades. In the third story, the round arched openings remain intact but some have been boarded and others have been replaced with windows smaller than the original. Second story windows are segmental arched. The lower story facade facing Broadway has been covered in vinyl and has a single boarded door.

The third story is a mansard-type roof in poor condition. A bracketed wood cornice extends across the facade under the dormer windows. The second story has a molded brick stringcourse. The windows are segmental arched with voussoirs. The storefront has a transomed door recessed between display windows and a secondary door that accesses the second story.

This two-story brick house has a medium-pitched front facing gable roof. The front entrance is on the right side of the front facade, is sheltered by a small black canvas awning, and is approached by a brick porch. To the left of the entrance are two single replacement windows. On the second floor are paired windows on the left side, and two narrow rectangular windows on the right side. There is a small square window at the attic level. Vinyl siding extends from the cornice, to just below the second floor windows, although the house is brick.

Building permit # H-3356. Daily Record 7/10/1912. Originally had a slate roof.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This front facade of this one-story brick house is obscured by a large wrap-around front porch. There is a front-facing gable roof and a paired window with a stone sill on the front facade. There is a brick addition with a flat roof on the east facade, which was probably built in 1911. The large porch is wooden, has a large shed roof, and extends the length of the front and east side facade.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

7/20/1911 a brick addition (G-9158) is added for $800 by owner and architect A. G. Van Ronzelin.

This two-story brick house has a medium-pitched front facing gable roof, with a wooden vergeboard. The front entrance is on the left side of the front facade, and is beneath a small shed roof overhang with wooden brackets. It is approached by a small brick porch, with a wrought iron railing. To the right of the entrance is a band of three narrow, multi-paned windows. On the second floor, above the entrance, is a casement window with a brick sill and lintel. To the right is a bay window with multi-paned casement windows above wooden paneling. There is a small square window at the attic level.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-3356. Daily Record 7/10/1912. Originally had a slate roof.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This two-story brick flat has a shaped parapet with a pediment center, and terra cotta coping. The front facade is symmetrical, and all four doors are centered and recessed, accessed by stone steps. To each side of the entrance is a single window, with a continuous sill that divides the facade into two sections of contrasting brick. At the second floor are four single one-over-one windows with stone sills. Above these windows is a white glazed brick label, which is continuous across the entire facade. Above this label is white decorative brick in diamond patterns.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a front facing gable roof. It has a gable roof addition at the rear. It is difficult to date, because permits could not be found, although it does appear to be on the Hopkins map of 1883. The bay closest to the street has one two-over-two window with non-functioning shutters. The entire house is covered in vinyl siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one non-contributing metal garage.

This one-story brick house has a flat roof with an elaborate shaped parapet with white glazed terra cotta coping. The wooden cornice is above a white glazed brick dentil motif. The original front porch is intact. It features a hipped roof, supported by white glazed brick columns with Corinthian capitals. The front entrance has sidelights and a transom. The front facade has two single windows, each beneath a metal awning. Beneath the windows is a continuous sill, which divides the front facade into two sections with contrasting bricks.

This one and a half story frame house has a medium pitched front facing gable roof. The front facade is one bay wide and has a band of three windows on the first floor, which share non-functioning shutters. The half story level has a single one-over-one window with non-functioning shutters. There is a gable roof dormer on the east side. There is a small one-story addition at the rear. The entire house is covered in vinyl siding.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick corner commercial/residential building has a flat roof with an elaborate cornice of stepped bricks. The main facade is on Ellwood, with the corner of the building at Ellwood and S. Broadway having a polygonal angle. Along S. Broadway there is a stepped parapet, one bay of commercial windows, with other windows being single with a stone sill and brick segmental arched lintels. The front facade has central bay with the entrance recessed behind a curved arch. A wide stone stringcourse divides the first and second floors. At the second floor the various windows (all new) share a continuous stone sill. In the cornice of the central bay are the words "Blumenthal Building". At the first floor, to each side of the arched entrance, are storefront windows.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a side-gabled roof with terra cotta coping. Its front facade was originally symmetrical, and appears to have been a duplex. On the center of the front facade are openings for two doors. The left door has been bricked in, the right door has had the transom filled in. Window openings for single windows flank each of the door openings. The replacement windows are too small for the original openings. The building has been painted.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

This house appears on the Hopkins map of 1883, although no building permits were turned up for it.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a gable on hipped roof. The front facade has two openings at each floor. The front door is on the right side of the front facade. The original transom has been filled in. At the first bay on the first floor is the opening for a paired window. It has been filled in and two smaller windows inserted. At the second floor there is a paired window at the first bay. At the second bay is a single one-over-one window. Both openings at the second floor are sheltered by metal or fiberglass awnings. A large concrete porch with a flat roof has been added to the front of the house.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No permit number.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one non-contributing frame garage, with a gable roof.

This two-story frame house has a front facing gable roof. The house is two bays wide with the front door at the right bay. It is located with a one story shed roof enclosed porch. A small wooden hipped roof porch shelters the door. The first pay of the porch has a large rectangular window with twelve panes. On the second floor is a paired window at the first bay, and a single window at the second bay. The entire house is covered in wood cedar siding, with cedar fishscale shingles used at the pediment above the second floor windows.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.
This two story frame "I-house" appears to be on the Hopkins map of 1883. It has a side gabled roof, and is two bays wide. A front porch with a shed roof extends the length of the front facade. It shelters a front door, a single window, and a paired window. At the second story level two single windows are symmetrically placed. A brick central interior chimney is visible. The entire house is covered in what appears to be metal siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.
A permit was taken out on 6/26/1950 for alterations ($75) by owners Catherine Brown and Michael Prince.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This one story brick Queen Anne cottage has a complicated roofline, with a gable-on-hip roof that shelters a small veranda at the first bay, and a front facing gable end second bay. The second bay includes a paired window with a wooden mullion. Some of the original decorative vergeboard remains. The entire brick house has been covered in a simulated masonry.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

The 1888 permit does not have an exact address, but the date and cost seems accurate. This house was built after the 1883 Hopkins map. In the 1917 City Directory a Burgess was living at this address, helping to establish A. Burgess as the original owner, and verifying the permit.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with a steeply pitched triangular pediment at the second bay. The cornice includes brick corbelling. The first bay is a single window with a stone sill, and the front door. Both are sheltered by a small wooden porch with a shed roof and turned wood supports. The porch extends the length of the first bay. The second bay sets closer to the street by a couple of feet. At this bay is a double window with a wooden mullion, brick segmental arched lintel, and a stone sill.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # C-2768. Daily record 8/6/1895.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick building originally had a storefront on the first floor, and an apartment on the second. It has a flat roof with red terra cotta coping, and a stepped parapet on the east and west sides. There is a brick corbelled cornice with three levels of corbelling. The second floor has three single windows with brick segmental arched openings.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

A permit for a brick 2-story dwelling and store on the west side of Broadway for $1000 by owner W. B. Silvey is dated 12/4/1896, and is likely referring to this building. The building at 110 Fillmore was moved here in 1931. A permit was taken out on 11/24/1931 for $1000 by owner Leonore Cohen to “move brick dwelling and store” at 110 Fillmore, but it does not say where it was moved from. There is a permit dated 8/29/1966 for $500 by owner Dow Manlove to “replace 3 wood windows with aluminum”. It is possible that the storefront was bricked in around the same time.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a front facing gable roof. The original house is one bay wide, with a single window on the front facade. A shed roof frame addition has been added to the west side. It has a rectangular window facing Fillmore Street. The entrance is on the west side. An exterior brick chimney is located on the east side of the house. The east side of the house appears to be covered in asbestos siding, although most of the house is still wooden siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Appears to be on the Hopkins map of 1883.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This one-story brick house has a low-pitched front facing gable roof. The pediment of the gable is covered with asbestos siding. The front facade is two bays wide, and asymmetrical. The first bay includes a rectangular window, and the front door, accessed by a small concrete porch. The second bay has a small square window of glass blocks. All front facade openings are covered with metal awnings.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story apartment building has a flat roof. The front facade is symmetrical and is six bays wide. It has two entrance bays, each with a flat roof porch beneath a large square window, outlined in a buff colored brick. Flanking each of the two central entrances are rectangular sliding windows with simple sills.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has an elaborate shaped parapet with white glazed terra cotta coping and a curved pediment. The cornice has simple brackets and dentils. The front facade has three openings. The front entrance is on the left side, set beneath a curved arch. To the right are two single windows. The windows share a continuous limestone sill, which divides the front facade into two sections of contrasting brick. Metal awnings cover all three openings. The basement is partially above ground, with two basement windows with segmental arches on the front facade. Both windows have been filled with glass blocks.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit #F-4566. Daily record 2/15/1908. 1923 alterations to brick dwelling ($50) by owner Emma Winkler.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick two-family flat has a low-pitched hip-on-gable roof. The front facade is dominated by a brick front porch with a gable roof which has a broken pediment top, allowing for a second story balcony at the top of the porch. The porch is brick with brick supports and a brick balustrade. The front facade is symmetrical with a large central window, flanked on each side by doors. At the second floor is a central door, which accesses the balcony, flanked on either side by single windows with stone sills. The entire building is constructed of variegated brick.

This one-story brick bungalow has an unusual side-gabled roof. The front facade has three openings. The left openings being a single three-over-one original wood window. The second opening is the front door, which is wooden and has multiple panes. The third opening is a ribbon of three windows, which appear to be two-over-one. The roof extends a couple of feet to create a small veranda on the front facade.

This one-story brick house has a flat roof with terra cotta coping. The shaped parapet on the front is simple, with square side pinnacles. There is a cornice on the front facade. The entrance is on left, set behind a curved brick archivolt, with bullnose brick. The original door and sidelights have been replaced with a new door and siding. To the right of the entrance are two single windows. The replacement windows are nine-over-nine. They are outlined by a brick label molding. The two windows share a continuous sill, which extends across the front facade. The partially above ground basement has two windows on the front facade. Both windows have been filled in with glass blocks. They are outlined with a brick label molding.

This one-story brick home has a flat roof with a shaped parapet, with white glazed terra cotta coping. At the entrance bay, the parapet steps up, with two square pinnacles leading to a pediment. There is also a brick corbelled cornice, and decorative terra cotta in diamond patterns. The entrance bay is on the left side of the facade, and include the front door, and a small one-over-one window with a limestone sill. They are sheltered by a hipped roof front porch, with wrought iron supports. To the right of the entrance is a single window, with a limestone sill, and a brick and terra cotta label mold.

The shaped parapet has a raised center with finials on its outside edges. A row of recessed brick panels stretch across the base of the parapet between the raised end blocks and the center raised section. The cornice is wood with a brick dentil course below. All three facade bays are round arched - the entrance bay is in the center and has two recessed doors. The flanking window bays each have three-part windows.

The basement is nearly full-height on the facade - two secondary entrances open into the basement here. The two main entrances are accessed from wood stairs. The application of the permastone appears to have altered the original openings.

The above form is filled out with information for a Carondelet property in St. Louis City, Missouri. It details the property's construction date, significant dates, area of significance, architect, builder, and other historical and architectural attributes. The form also includes sections for current and historic uses, ownership, and sources of information. Additional sections for architectural features such as roof material, chimney placement, and window types are also included. The form is designed to comprehensively document the property's history and significance for preservation purposes.
ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The simply shaped parapet projects slightly in the center and has white glazed brick decoration. A gabled porch on brick supports is positioned at the entrance. The other facade bay is a paired window.

Since there is no post-1900 permit for the construction of this house (only permits for alterations - 1927) it may be an older house with a more recent facade. A full-length gabled porch rests on brick supports. The upper story and side windows are segmental arched.

The steeply pitched stepped gable roof and projecting center Flemish gable that intersects the main roof are this building's distinguishing features. Terra cotta crests decorate the gables and voissoirs surround the three-arched center entrance bays. Arched dormers with terra cotta urns flank the center bay.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This building's parapet is its most distinguishing feature. A pediment is centered in the parapet and is flanked by dentils of contrasting colored brick. A white glazed brick diamond pattern is centered in the pediment. Each story has two bays. The second story bays and the entrance are in segmental arched openings and the lower story window is round arched. Contrasting colored brick accents each bay. The second story windows are smaller replacements. A full-length porch is metal on wrought iron supports.

Other:  

This one-story brick house has a flat roof with terra cotta coping. The original shaped-parapet and wooden cornice have been removed. The white glazed brick dentil is remarkably still intact, as is the original front porch. The porch has a front facing gable roof with extended rafters, supported by white glazed brick columns with Corinthian capitals. The front entrance has been filled with vinyl siding. The front facade has two single one-over-one windows, with a continuous sill, which divides the front facade into two sections with contrasting bricks.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with terra cotta coping. The original shaped-parapet has been removed. The white glazed brick dentil and wooden cornice is still intact, as is the original front porch. The porch has a front facing gable roof with extended rafters, supported by white glazed brick columns with Corinthian capitals. The front entrance has been filled with vinyl siding. The front facade has two single one-over-one windows, with a continuous sill, which divides the front facade into two sections. Simulated masonry has been applied above the cornice and below the continuous sill.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-1232. Daily Record 2/20/1912.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with an elaborate shaped parapet with white glazed terra cotta coping. The wooden cornice is above a white glazed brick dentil motif. The original front porch features a hipped roof, supported by white glazed brick columns with Corinthian capitals. The front entrance has been filled with glass blocks. The front facade has two single one-over-one windows, with a continuous sill, which divides the front facade into two sections with contrasting bricks.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-1232. Daily Record 2/20/1912.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one non-contributing garage, with aluminum siding and a flat roof.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has an elaborate shaped parapet with white glazed terra cotta coping. There is a wooden cornice with dentils above a white glazed brick dentil. The original front porch has a front facing gable roof with extended rafters and terra cotta tiles, supported by white glazed brick columns with Corinthian capitals. The front facade has two single windowd. Beneath the windows is a continuous sill, which divides the front facade into two sections with contrasting bricks.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-1232. Daily Record 2/20/1912.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One non-contributing frame garage with a gable roof.

**END OF FORM**
21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story dwelling has a flat roof with a stepped side parapet with terra cotta coping. There is a two-story brick front porch on the right side of the front facade. To the left of the front porch are two large windows beneath Romanesque arches. Above the arches, at the second floor, is a group of three rectangular windows, which share a continuous sill. A door opens onto the second floor of the porch. The cornice is brick and has a broad overhang and some corbelling.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No building permit could be found, although a street numbering certificate from 2/17/1898 seems to be an accurate date for this house. 1915 alterations ($198) by owner and architect Augusta Choisel (permit # l-6343).

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

Behind 5811 Michigan, and across the alley, is a contributing frame garage with a gable roof.

This 2.5 story brick dwelling has a slate mansard roof with a wooden cornice with multiple brackets and wood decorative carvings. Two gable dormers with pediments sit within the mansard. The front facade is symmetrical with a central hall entrance beneath a large wooden porch. The porch has a low-pitched hipped roof and is supported by round columns, and has a wooden banister. Two two-over-two windows are on each side of the front door. Five two-over-two windows are on the second floor. The entire front facade has been covered in stucco.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There is a building permit from 3/20/1889 for a two-story brick house on this block, for owner Wm. Stith. A street numbering certificate was taken out for this address in 1890. The house appears to pre-date both of those dates, and it is on the Hopkins map of 1883. Built as a single-family home, a permit was taken out on 6/10/1942 to alter the dwelling for use as a tenement. It was for $2500, with W. C. Choisel (Choisen?) listed as the owner, and J. P. Stevens as the architect.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This 1.5 story brick dwelling has a front facing gable roof with a sloped end on the south facade. Also on the south facade is a shed roof dormer. The front entrance is located on the right side of the front facade, within a brick bay that slightly extends from the facade, beneath a hipped-roof awning. To the left of the entrance are two rectangular windows, each with narrow sidelight windows. On the half story level are two one-over-one windows. All windows have brick sills and flat brick arches. A shallow brick and concrete front porch extends the length of the front facade. It has no roof, and an iron railing.

### ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story house has a flat roof with a stepped parapet with terra cotta coping. There is cornice with dentils that appears to be galvanized metal. The two bay front facade has the entrance on the left side, set within a segmental arched opening. Original doors have been removed. The second bay is two windows, each single one-over-one with stone lug sills and brick segmental arched lintels. There are identical windows above, at the second story level, and a single window at the first bay.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # E-6827. Daily record 3/14/1906.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one contributing frame garage, with a gable roof.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story house has a flat roof with a stepped parapet with terra cotta coping. The front facade has a simple cornice of white glazed terra cotta. A large enclosed front porch has been added to the left side of the front facade, obscuring the entrance. To the right is a large square window, with a continuous sill that extends the length of the front facade. At the second floor, the first bay is a door opening, filled in by a window. The second bay is a large square one-over-one window with a stone sill.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick flat has a medium pitched front facing gable roof. There is a large front porch, with tapered brick supports. The low-pitched gabled roof is interrupted by a second floor balcony, with a simple banister. On the first floor, the two separate entrances are located on the right side of the front facade. To the left is a rectangular window with diamond-paned sidelights. On the second floor is a central door, which opens to the balcony. On either side it is flanked by rectangular windows with diamond-paned sidelights, identical to the window on the first floor.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one non-contributing garage, with vinyl siding and a gable roof.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has undergone major renovations. Originally, it would have had a flat roof with a slate mansard on the front facade. A low-pitched hipped roof was added at a later date. The original mansard slate was removed and replaced with vinyl siding. The dormer is still in place, although given a shed roof. At the first floor are two single one-over-one windows, with stone sills and brick segmental arched lintels. The entrance is on the south facade.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # A-5690. An address is not given for this permit, only "ES of Michigan", but the description and date matches this building.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This 1.5 story brick house is unusual for Carondelet. It has a complicated roofline, with a main side gable, with three intersecting cross gables, the largest of which is a hip-on-gable. This hip-on-gable bay forms the right side, or main bay. It has a central exterior chimney, with picturesque brick quoining. Flanking the chimney on the first floor, are two single four-over-four windows, with stone lung sills, and a flat arched stone opening, with keystones. At the half story level the chimney is flanked by smaller rectangular windows, with stone sills. To the left is the central entrance bay, with a front-facing gable roof, and decorative clinker bricks. The entrance door is curved arched with stone quoining. To the left, at the first bay of the house, is an unusual brick dormer with a sloped gable roof. There are two three-over-one windows with stone lug sills. There is a bay windows on the north side facade. The entire house, including the bay, has a slate roof.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Building permit # F9331. Daily record 9/25/1930.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One contributing frame garage, with a gable roof.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick residence has a flat roof with a shaped parapet with white terra cotta coping. It has a curved pediment with steps. According to the permit, the cornice, with brackets and a wide dentil, is actually galvanized iron. The front entrance is on the left side of the front facade. To the right of the entrance are two single windows, which share a continuous sill. On the second floor are three symmetrically located windows. All single one-over-one, with stone sills. The large front porch was probably added in 1928. It has a low-pitched front facing gable roof, with stone tapered supports.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick residence has a flat roof. According to the permit, the cornice, with brackets and a wide dentil, is actually galvanized iron. The front entrance is on the right side of the front facade, and has two doors set behind a curved arch. To the left of the entrance are two single windows, which share a continuous sill. On the second floor are three symmetrically located windows. All windows are single one-over-one, with stone sills.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick two-family flat has a flat roof with a shaped parapet. The galvanized cornice has simple brackets. The front facade is two bays wide. The left side entrance bay includes two doors with transoms. They are accessed by a two-story front porch, with square brick supports. On the first floor, the right side bay is a paired window, outlined by a brick label mold. It has a continuous limestone sill. On the second floor, the first bay is a single door which opens onto the second floor of the porch. The second bay are two windows, each with limestone sills. Like the first floor windows, they are outlined by a brick label mold.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # E-9135. Daily record 9/12/1906.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one contributing frame garage, with asphalt siding, and a gable roof.

This one-story brick house has a flat roof with a shaped parapet with four square pinnacles. There is a cornice with simple brackets, and brick corbelling beneath. The front facade has two openings. On the right is the front entrance, which is an arched opening with the original door which sits behind the arch. The arched brick is outlined with bullnosed brick. To the right of the entrance is a single one-over-one window, which is outlined with bullnosed brick. It has a continuous stone sill, which extends the length of the front facade. This sill divides the facade into two sections of different colored brick.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit #E9172 lists the address as 6009 Michigan, but that appears to be wrong. A street numbering certificate was taken out on 9/4/1906 by Jos. Zupec for 6011 Michigan. 9/8/1922 permit for brick addition to dwelling ($475) by owner H. R. Noll (permit F-2278).

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One non-contributing garage, with vinyl siding and a gable roof.

The information provided includes details such as the survey number, address, city, county, and various aspects of historical and architectural significance, including construction dates, names of architects and builders, and details about the building's construction and structural elements. The form also includes sections for current use, historic and current owners, and sources of information.
21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick two-family flat has a flat roof. Its original shaped parapet looks to have been removed, creating a short mansard roof, with exposed exposed “rafters” at the cornice. The alteration makes the house more traditionally Craftsman in style. On the left side of the front facade is a two-story porch, with brick supports with Corinthian capitals. To the right is a paired window. The original paired window was removed, replaced with too small windows surrounded by added brick. On the second floor there are two one-over-one replacement windows, which share a limestone sill. A door opens onto the second story of the porch.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # F-2752. Daily record 7/26/1907.

This one-story brick dwelling has a flat roof with a shaped parapet with terra cotta coping. The front cornice has brick corbelling and dentils. The entrance bay is on the right side of the front facade, beneath a curved arch with bullnosed bricks. To the right is a single one-over-one window, outlined with bullnosed bricks. This window has a continuous limestone sill which extends across the front facade. The basement window is partially above ground on the front facade, and is decoratively outlined with brick stretchers.

Building permit # E-6488. Daily record 6/7/1906.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick residence has an unusual flat roof with a front pediment gable and a mansard at the square corner bay. The first bay at the first floor is a small rectangular window next to the front door, which is accessed by stone steps. To the right is a single window with a stone sill. The third bay of the home is a two-story corner bay, with several single windows. The second floor windows share a continuous limestone sill. All windows are replacements.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick commercial/residential corner building has a flat roof with a step parapet and terra cotta coping on the south side. The front facade has an elaborate shaped parapet with two large square brick pinacles. There is a cornice with simple brackets. The second floor has three symmetrically placed windows, each single one-over-one with stone lug sills. The replacement windows are smaller than the window openings. The first floor has the entrance beneath a curved arch on the right side of the front facade. The corner storefront has an iron support and corner column. The original storefront windows have been removed and filled in with brick.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # E-6100. Daily record 12/19/1905.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

### ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick flat has a flat roof with a shaped parapet, and what appears to be a galvanized cornice. The front entrance bay is on the left side of the front facade, with two doors set behind a curved arched opening. To the right are two single one-over-one windows with a continuous limestone sill that extends the length of the front facade. A label mold of bull nosed brick outlines the two windows and the curved arch of the entrance bay. At the second floor are three single one-over-one windows with limestone sills.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # E-8740. Daily record 8/14/1906.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One contributing brick garage, with a gable roof.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a flat roof with square side pilasters. The front facade has two bay openings. The first floor has a single window and a front door. They are sheltered by a hipped roof porch with square supports. The second floor has two one-over-one windows. The entire house looks to be covered in stucco.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

The house does not appear on the Hopkins map of 1883. It appears to be built around the turn of the 20th century, but no building permit exists. A permit was taken out on 4/7/1928 for $300 alterations to brick tenement by owner R. P. Veness. A permit for what appears to be the current garage was taken out on 6/1/1954 for $500 by owner Leo Hakubiah

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One contributing frame garage, with a gable roof.

This 1.5 story frame house has a side-gabled roof with a front facing gable dormer on the front facade. The front of the roof extends about three feet to create a small veranda. On the front facade are two openings, a single window and a door. The entire house, including the dormer, has been wrapped in vinyl siding.

1913 permit for a shed. 1925 permit for a one-story brick garage ($700) by owner A. Woehler.

1925 garage?

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a side-gabled roof. The front facade has three openings. There is a central door, which is sheltered by a metal awning with wrought iron supports on a small concrete foundation. The entrance is flanked on either side by single one-over-one windows with stone sills and brick segmental arched lintels. At the rear of the house is a small frame addition.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

The original church building, built 1863, is a two-story brick building with a front facing gable. It has massive corbelling and narrow round-arch windows, that are two-stories in height. The rest of the church was added in 1896 by an unknown architect. It extends from the south facade of the 1863 church, with a central square tower with buttresses and triangular pediments at the roof. The main body of the church has a cross gable plan, with round arch stained glass windows. A flat roof addition was added at the southeast corner of the 1896 structure, in 1968.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick four-family flat has a flat roof and a symmetrical front facade. The first and fourth bays are entrance bays and are dominated by two story brick porches with gable roofs with brackets. The porches shelter two entrance doors on the first floor and a single door which opens to the second level or balcony on the second floor. The center bays include paired windows with stone sills at both floors. At the roofline is a wooden gable awning with brackets, which tops these second and third bays. The entire building is constructed of variegated brick.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick two-family flat has a medium-pitched front facing gable roof, with overhanging eaves with wide brackets. There is a large front porch with a low-pitched gable roof and tapered brick piers. The two bay facade includes a ribbon of three windows, and the front door, on the first floor. On the second floor is a central ribbon of three windows, which share a stone sill. It is flanked on either side by small rectangular windows with stone sills.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one non-contributing garage, built in 1977, with vinyl siding and a gable roof.

This two-story brick two-family flat has a false side gable roof, which is actually flat in the rear. The parapets have terra cotta coping. There is a simple bracketed cornice. The front facade has three openings, including two single one-over-one windows at both the first and second floor. The second floor windows each have a stone sill, and the first floor windows share a continuous stone sill. The third opening is the front entrance. Here is a two-story brick porch with brick supports and a dentiled cornice. At the second floor wooden French doors with transoms open onto the second floor of the porch, which is open and has brick posts and a wrought iron railing.

The architectural/historic inventory form contains detailed information about a structure in Carondelet, Missouri. The form includes sections for the survey number, address, city, ownership, historic and current use, historical information, architectural information, and a section for other details. The form also has fields for survey and revision dates, and options for indicating the level of survey, National Register status, and additional research needed.
21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick four-family flat has a flat roof with a white glazed terra cotta cornice and brick corbelling. The front facade is symmetrical with four openings. The center bays include two recessed entrances, each with two doors with transoms. Flanking the entrance bays on either side are large one-over-one windows with stone sills. At the second floor are four one-over-one windows with stone sills. Above the windows is a continuous drip molding of white glazed brick, which extends across the front facade. Above this molding is more decorative white glazed brick in diamond patterns.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick four-family flat has a flat roof with a white glazed terra cotta cornice and brick corbelling. The front facade is symmetrical with four openings. The center bays include two recessed entrances, each with two doors with transoms. Flanking the entrance bays on either side are large one-over-one windows with stone sills. At the second floor are four one-over-one windows with stone sills. Above the windows is a continuous drip molding of white glazed brick, which extends across the front facade. Above this molding is more decorative white glazed brick in diamond patterns.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # I-83. Daily record 2/5/1914. 1939 permit for alterations ($150) to brick dwelling by owner F. Vogel.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one contributing frame garage, with a flat roof.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick four-family flat has a flat roof with a white glazed terra cotta cornice and brick corbelling. The front facade is symmetrical with four openings. The center bays include two recessed entrances, each with two replacement doors. Flanking the entrance bays on either side are large one-over-one windows with stone sills, and non-functioning shutters. At the second floor are two single one-over-one windows with stone sills, at the first and last bays. At the center is a decorative brick square below two small square windows with stone sills. The front facade has been obviously retuckpointed, or possibly rebuilt, up to the bottom of the second floor windows.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick commercial/residential building has a flat roof with a side stepped parapet with terra cotta coping. There is an elaborate brick corbelled cornice on the front facade. The first floor storefront has been filled in with glass blocks. The front entrance is recessed at the corner, and is supported by an iron column. The original door has been replaced, although it is in the original location. At the second floor is a single window at the first bay and a paired window at the second bay. They share a continuous stone sill. At the rear is a one-story brick addition.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # D-5844. Daily record 4/13/1901. 1930 permit for alterations ($150) to brick dwelling and store. Permit dated 2/2/1953 for "one story brick addition, cleaning plant", which cost $10,000. The owner at the time was Harry Fischer, with architect Steffens & Widman and builder Hinrichs Construction Co.

**Notes:**

- The building is a single-story structure with a flat roof and brick exterior. It was built in 1910 and has a shaped parapet.
- The building is located on Michigan Avenue in St. Louis City. It was surveyed as part of the Carondelet project.
- The building was previously surveyed and is not on the National Register.
- The building is individually eligible for the National Register and is listed in the National Register of Historic Places.
- The building is owned by a private individual.
- The building has no significant changes or alterations.
- The building is in good condition and is located near a public road.
ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The parapet is flat-topped with terra cotta coping. A center brick pilaster divides the remodeled facade.

The most defining feature of this building is the rounded corner under a conical roof. The Michigan Avenue side has an arcade that tops five window bays. The parapet has a stringcourse of recessed panels and corbelled brick at its base. The store fronts are fairly intact. Arched openings lead to a corner entrance.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This building is currently vacant and its openings are boarded. Features include a slate-clad mansard parapet and a bracketed wood cornice. Openings are segmental arched - those on the upper story have stone sills with lug sills; the center opening has a wrought iron balcony. An I-beam extends over the broad store front opening.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The north side of the building appears to be the original. This section has a remodeled lower story but a portion of the original wrought iron store front remains exposed on Michigan Avenue. This earlier section of the building includes a brick cornice and segmental arched windows in the second story. A series of alterations are recorded in permits primarily in 1904, 1909, and 1914 and include a two-story addition on the south side and a one-story addition on the west.

A projecting center bay under a hipped roof is this building’s most prominent feature. This section includes a bracketed wood cornice with a gable peak in the center and a rounded bow on the lower story with round arched windows and a balcony above. The main entrance is recessed behind a round arched opening; keystones and voussoirs decorate the openings on the facade. A recessed side bay is five-sided under a gable roof and has a balcony in the second story.

This building has a simply shaped parapet with a bracketed wood cornice. Two entrance bays under a gabled overhang with bracket supports are positioned in the center. Two bays of segmental arched windows flank the center section. The six window bays in the second story are also segmental arched. There may be an older house incorporated in this - there was a numbering certificate issued in 1879 for 7017-19 to Augusta Deutman & Louisa Ibers.

A pyramid-shaped roof that intersects the main hipped roof is this house’s most distinguishing characteristic. A gable over the slightly projecting entrance bay on the right also intersects the main roof. A recessed door stands behind the round arched entrance bay. A pair of windows is located in the center of both levels - the lower story pair sits in a segmental arched opening. The corner under the pyramidal roof is positioned at an angle and has a window at each level (balcony in second story).

This house has excellent integrity and has been well-maintained. It sits prominently on a corner lot. The L-shaped house has an intersecting hipped roof with a gabled dormer in each section. The four window bays closest Michigan Avenue are tall segmental arched openings with keystones and voussoirs. A wood porch is located at the intersection of the two wings.

A shaped parapet peaks in the center and supports terra cotta urns on its outside edges. The center double door entrance bay is flanked by two single windows. A diamond-shaped terra cotta panel sits in the center of the parapet and has similar shaped vents flanking it. A stone retaining wall lines the front edge of the property.

An especially well-maintained building. A bracketed wood cornice supports a pediment. A slightly projecting center bay has two round-arched entrance bays with recessed doors. The flanking windows are also round arched. The six bays of windows in the second story are segmental arched. Keystones and voussoirs decorate each opening. A stone stringcourse divides the two levels.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The gable roof on the projecting entrance bay intersects a slate-clad mansard-type roof. A Palladian-style window is positioned in the gable with a pair of round arched windows below. A round arched entrance bay with two doors is positioned at the bottom of the projecting bay. A three-part round arched window bay with transoms sits next to the entrance. A projection on the first floor sits at an angle. Second story windows are round arched.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

A two-story tower dominates the facade of this house. Four round arched windows bays sit in each level of the tower. A dormer with a pair of round arched windows is positioned in the center of the tower's conical roof. The entrance bay is segmental arched and has two recessed doors. A round arched window is in the second level over the door. Beaded brick trim outlines the top of each arch and a dentilled cornice highlights the roofline.

This was built as a single dwelling but served at one time as a funeral home. The high pitched hipped roof has hipped dormers with single windows. The first story has a round arched entrance bay that leads to a recessed corner porch. The other lower story facade bay is a round arched window. A rounded, wood bay window is located in the second story corner. Sanborn maps (1938) show that the rear addition was a chapel.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The most distinguishing feature is the rounded southeast corner with curved windows. A two story projecting entrance bay has a gabled roof that intersects the main roof. Other features include a dentilled brick cornice and paired windows on the facade with contrasting colored brick lintels. The side windows are segmental arched.

This house sits high on a corner lot and stands out with its two story tower and conical roof. A projecting wing holding the entrance bay has a gable roof that intersects the main hipped roof. Contrasting colored bricks accent the segmental arched windows on the facade and the rectangular openings on the tower. The round arched entrance bay sits on cluster column supports. The side elevation, facing Robert Street, has segmental arched windows and a decorative ogee-type arch outlined in contrasting color brick trim.

Two of the three bays project slightly and sit under a slightly taller parapet decorated with finials. The frieze area has molded brick medallions. Second story windows are segmental arched. The first story has round arched openings. A transomed door is recessed behind a round arch with rounded brick column supports.

The mansard-type parapet is asphalt shingle with a bracketed cornice at its base. The facade openings (three in each level) are segmental arched with wood decoration between the window and the arch. The entrance bay likely had a recessed door but it has been enclosed - this may be a historic alteration.

Pedimented windows are positioned in the shingle-clad second story. A wood cornice divides the two levels. The two-bay facade has two segmental arched window bays - the door is located on the side in a short projecting wing. A brick stringcourse with flower medallions and dark brick voussoirs decorate the facade.

| Each level has round arched bays with contrasting colored and molded brick trim. The two entrance bays have two recessed doors (the entrance bay on the left side has been altered). The parapet has a slightly raised center and a dentilled stringcourse at its base. Decoration appears to have been removed from the face of the parapet. |

This house existed by 1900 according to census records but the facade appears to be a 1930s to 40s alteration. The bracketed wood cornice from the earlier facade remains intact. A center entrance bay accesses four recessed doors. Paired, shuttered windows are positioned in both levels. The brick on the facade is contrasting-colored; the sides are uniform-colored red brick.

The slate-clad mansard sits over a wood dentilléd cornice. A brick gable with brackets and a circular window is positioned in the center of the mansard. The lower story is articulated with evenly spaced recessed rows of bricks capped by a dentilled brick stringcourse. A round arched entrance bay shelters two front doors. The second story has a pair of windows in the center flanked by single windows.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story concrete block house is covered in stucco. It has a low-pitched hipped roof and a large, square exterior concrete chimney. The front door is centrally located on the front facade and has a simple minimalist surround. At the first bay of the house is a rectangular picture window. At the third bay is a single one-over-one window.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

building permit # S6250.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick duplex has a low-pitched front facing gable roof. The symmetrical front facade has the two front doors located in the middle of the facade. They are accessed by a simple concrete porch with a wrought iron railing. Flanking each of the doors are large rectangular windows with stone sills. The doors and windows are covered with metal awnings.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

1962 permit to "erect foundation only" ($3200) by owner Richard Lowe.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One non-contributing frame garage, with gable roof.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick home has a flat roof with terra cotta coping. The cornice has brick corbelling. The front facade features a limestone belt course beneath the window. The basement and first floor windows each have a brick segmental arched lintel. The front door has a transom, and is sheltered by a small porch with a hipped roof. The porch has wrought iron supports. The foundation is of rubble stone.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # D-7297. Daily Record 11/10/1892.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One non-contributing garage, with vinyl siding and a flat roof.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a steeply pitched hipped roof. There is an exterior brick chimney on the north facade. A large classically-inspired front porch looks relatively new. It has four doric columns and a low-pitched front facing gable roof. On the left side of the front facade is the front entrance. To the right of the door are two single one-over-one windows.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There are two permits from 1889 and one from 1890 that could be for this house, but it could not be successfully proven. No houses were on this block when the Hopkins map of 1883 was produced. The street numbering certificate was taken out in 1888 by owner Bertha M. Rutherford. 1925 and 1929 permits to alter dwelling (both $50) by owner J. Barktels.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This 1.5 story frame house has a gable roof and an L-shaped plan. The gable roof shelters a side porch on the south facade, where the entrance to the house is located. The simple carved vergeboard is still in place. The gable facing end, which faces Minnesota Ave., has paired one-over-one windows at the first and half story levels.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There are two permits from 1889 and one from 1890 that could be for this house, but it could not be successfully proven. No houses were on this block when the Hopkins map of 1883 was produced. 1923 frame addition ($1000) by owner Mrs. M. Boecke and architect F. Holstein & Sons.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one contributing frame garage, with a gable roof.

This two-story brick house has a front facing high-pitched gable roof. The front porch extends the entire length of the front facade and has a shed roof supported by square brick columns. The simple wooden cornice has two wooden brackets. The brick work above the second story uses a contrasting colored brick to create a pattern similar to half-timbering. Windows are all single one-over-one with stone sills. The front entrance and door appears to be original and features a transom and side-light window.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-418. 1927 permit for alterations ($400) to brick dwelling by owner E. T. Mueller.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

|                     | |
This one and a half story frame house was built sometime between 1857-1875. It has a cross gabled roof with an L-shaped plan and a rear addition, also with a gable roof. The gable ends have decorative vergeboard with a diamond pattern. The entire house is covered in board and batten siding. The gable end bay closest to the street on the front facade has three narrow rectangular windows beneath a flat roof porch, with wooden posts and railings. At the half story level are two narrow windows with pointed arches. On the side-gabled section of the front facade is a small front gabled porch with decorative vergeboard above a Tudor arch. Above the entrance is a pointed arch dormer. The southside facade has several tall narrow windows with drip mold crowns, and four pointed arch dormers.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a front facing gable roof. There is a small frame front porch, with a hipped roof and wooden supports. Beneath the porch is the front door and one three-over-one window. There is a small addition at the rear. The entire house is covered in wooden siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There is a permit from 7/16/1885 for a $50 kitchen. Ellen Russell owned the home when she applied for a permit on 9/13/1912 to make $35 worth of repairs. A permit was taken out on 6/19/1929 for $600 worth of alterations by owner John Uthoff.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There are two contributing associated outbuildings. One is frame building with a hipped roof, which appears to be a residence, and may have been built in 1886. The concrete block garage was built in 1954.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story ranch house is unusual with a low-pitched side gabled roof, with a front facing pediment gable on the front facade. Within this pediment is the front entrance beneath a high-pitched gable overhang, which is to the right of a rectangular picture window with non-functioning shutters. The first bay of the house is a garage. The two bays to the right of the entrance includes a square glass block window, and a paired window with non-functioning shutters.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a front facing gable roof. The symmetrical front facade has a central door, flanked by single windows with segmental arched lintels and stone sills. Two windows are at the second story level, each also having segmental arched lintels and stone sills. Windows are vinyl replacements, and are too small for the original openings. There is a brick dentil along the side facades. The rear two-story brick addition was added in 1911.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

1911 brick addition to dwelling ($800) by owner Mrs. A. McDonald and architect J. B. Schaefer.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

Other:
This one-story frame house has a unusual low-pitched cross hipped roof. It has an L-shaped plan, with one bay towards the street. This bay includes a door and window beneath a small veranda, obscured since the veranda has been mostly filled in with siding, leaving a long narrow window as the only opening. The house is four bays in length.

No building permit was found, and the house appears to be on the 1883 Hopkins map.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with terra cotta coping, and square brick corners. The front facade is two bays wide, with three openings. The front entrance is on the left, sheltered by a small porch with a shed roof, not original to the house. To the right are two single windows with stone sills. Vinyl replacement windows, each nine-over-nine, have been inserted.

This one-story brick house has a low-pitched hipped roof. The asymmetrical front facade has a central door, accessed by a small concrete porch. It is flanked on each side by square sliding windows with concrete sills. Each bay opening is covered by a metal awning. Simulated masonry outlines the front door and creates "quoining" at the corners.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Other:
This one-story house has a flat roof with terra cotta coping. The front facade has an elaborate cornice with brick corbelling, what appears to be galvanized iron, above brick dentils. The symmetrical facade has a central entrance bay which extends from the rest of the facade. The entrance doors are recessed, and obscured by a metal awning. On either side the entrance is flanked by a large three-over-three window with a brick segmental arched opening outlined in bull nose brick, and a stone sill.

The 1895 permit is for "2 adjacent" brick flats. Another building was once next door on the same lot, at 5920 Minnesota.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a flat roof and a shaped parapet with terra cotta coping. The front facade has three bay openings. The entrance door is on the right side of the front facade, beneath a canvas awning and approached by a concrete porch. To the left, symmetrically placed, are two single one-over-one windows with stone sills and segmental arched lintels. At the second story are three single one-over-one windows, also with stone sills and segmental arched lintels. Bull nose brick creates a drip label that extends across the front facade over the three windows. Above is simple brick corbelling which creates a cornice. The entire building has been painted.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No permit found. 1912 alterations to brick dwelling ($350) by owner J. Purkey and architect Swofford C. Co.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One contributing frame garage, with a gable roof.

### ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick cottage has a front facing gable roof with a catslide on the south roof, which creates an arched doorway to the yard. The front facade has two openings, with a single window on the left, and the front entrance on the right. The front door is sheltered by a wooden gable roof awning.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

| 1931 alterations to brick dwelling ($250) by owner F. Lengen. |

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

| There is one non-contributing garage, with asphalt siding and a gable roof. |

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with a corbelled cornice. The front facade has two openings. There is a large window on the left and a door on the right. A brick front porch in the Craftsman style appears to be a later addition, probably from 1930. It has a front facing gable roof with half-timbering, and brick supports.

This one-story brick house has a flat roof with a stepped parapet. The front facade has two openings. On the left is a paired window with wooden mullion set beneath a brick segmental arched lintel. To the right is the front entrance, recessed behind a curved arch. The brick has been covered in stucco. At the rear of the house is a frame addition.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Permit # D-7016. Daily record 9/29/1902. Permits raise questions. There is a 1905 permit for a $1500 two-story brick bake shop at 6022 Minnesota by owner H. G. Bagula. 1918 repairs to brick dwelling for $200. There is a 1919 permit to wreck two-story frame dwelling, and wreck brick building, both supposedly at 6020 Minnesota. 1928 permit for $300 in repairs to brick dwelling.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with red terra cotta coping. The front facade has a slight central stepped center and square corners with corbelling. The cornice is also corbelled brick. The one bay front facade has two openings. At the first bay is a paired window with a stone sill, and non-functioning shutters. The second bay is a single door, sheltered by a fiberglass shed roof awning with wrought iron supports.
